

MuxLab and Sennheiser Validate Interoperability for Seamless Meeting Room Integration.

MONTREAL, MARCH 2026 – MuxLab, a leading provider of professional AV signal distribution and collaboration solutions, today announced successful interoperability testing with Sennheiser TeamConnect Bar Solutions, reinforcing both companies’ commitment to delivering reliable, high-performance meeting room experiences.

The validation confirms that MuxLab’s **USB-C 3.2 Gen1 4-Port Extender Kit (model 500534)** and **MuxMeet Share Base (model 500829)** are fully compatible with Sennheiser’s TeamConnect Bar Solutions, enabling seamless integration for modern conferencing environments.

This collaboration ensures that integrators and end users can confidently deploy MuxLab and Sennheiser solutions together to support high-quality audio, simplified connectivity, and flexible room design.

“This successful testing with Sennheiser highlights the strength of the MuxLab AV Ecosystem,” said Daniel Assaraf, CEO at MuxLab. **“Our solutions are designed for practical deployment simplicity and interoperability, giving integrators the confidence to build complete, reliable meeting spaces.”**

Sennheiser’s TC Bar Solutions are flexible all-in-one devices designed for small to mid-sized meeting rooms and collaboration spaces. Both are certified for Microsoft Teams and include benefits like Trusted Sennheiser Audio, easy setup, high video quality, security and sustainability.

Sennheiser’s TeamConnect Bar solutions are widely recognized for delivering premium audio performance in collaboration spaces. When paired with MuxLab’s USB extension and wireless presentation capabilities, customers benefit from:

- Simplified BYOD and BYOM meeting workflows
- Reliable USB extension over IP for flexible system design
- Seamless integration across conferencing platforms
- Scalable deployment across meeting rooms of all sizes

“Together with MuxLab, we’ve validated a solution that simplifies USB extension and BYOM workflows with our TeamConnect Bars,” said Charlie Jones, Senior Partner Relations Manager at Sennheiser. **“This gives integrators confidence that MuxLab and Sennheiser solutions work reliably together, supporting straightforward deployment across meeting spaces.”**

This joint validation underscores both companies’ focus on open integration and delivering accessible, enterprise-grade AV solutions for today’s hybrid workplace.

###

About MuxLab:

MuxLab is a Canadian-based manufacturer of professional AV solutions, delivering a complete portfolio of signal distribution, AV over IP, control, Digital Signage, Broadcast, and connectivity products. As The MuxLab AV Ecosystem, our solutions are designed for interoperability, ease of deployment, and reliable performance, empowering integrators and end users worldwide. With a focus on practical innovation, competitive pricing, and trusted global support, MuxLab enables organizations to build scalable, high-performance AV systems with confidence.

About the Sennheiser Brand – Over 80 Years of Building the Future of Audio

We live and breathe audio. We are driven by the passion to create audio solutions that make a difference. This passion has taken us from the world's greatest stages to the quietest listening rooms – and made Sennheiser the name behind audio that doesn't just sound good: It feels true. Since 1945, we stand for building the future of audio and bringing remarkable sound experiences to our customers.

While professional audio solutions such as microphones, meeting solutions, streaming technologies and monitoring systems are part of the business of Sennheiser electronic SE & Co. KG, the business with consumer devices such as headphones, soundbars and speech-enhanced hearables is operated by Sonova Holding AG under the license of Sennheiser.
