

# THOMAS

Refreshingly different vacuuming.

## CYCLOON HYBRID

I have discovered the best bagless vacuum for me! It manages animal hair better than others, it is easy to empty and freshens the air, if necessary.

Anne Brooke, pet lover

# WORLD'S FIRST by THOMAS: CYCLOON HYBRID, WHO DELIGHTS THE ANIMAL LOVERS.

The first bagless hybrid cyclon vacuum, which removes animal hair and refreshes the air.

On IFA 2017, THOMAS CYCLOON HYBRID celebrated widely acclaimed launch. No wonder, as this unique cyclone vacuum impresses with well thought out solutions, which are particularly in demand in the lucrative market „animal households“!

## PET OWNERS WILL LOVE IT.

Many animal households were waiting for this: The THOMAS CYCLOON HYBRID is the first bagless hybrid cyclon vacuum worldwide, which really solves the two most important problems of pet owners:

- Powerful removal of animal hair
- Thorough removal of animal odors

As THOMAS leads the way with a new technology and offers exactly the correct functions in one device for this!

## CYCLONE VACUUMING WITH THE THOMAS EASYBOX.

THOMAS has invented it: The innovative easyBox (DE patent filed) has a double chamber system, in which allergenic very fine dust is separated from animal hair and coarse dust.

A further big advantage: Thanks to its innovative removal and opening mechanism, emptying the easyBox is not only particularly simple, but also particularly hygienic. Thus, the THOMAS easyBox holds what users want!

Quite easy:  
Opening.

Super easy:  
The hygienic emptying.

If required:  
Empty fine dust chambers  
with water.

## FRESH VACUUMING WITH THE THOMAS AQUA-FreshAir-Box.

Any time it becomes necessary: The easyBox is quickly exchanged with the AQUA-FreshAir-Box filled with only one litre of water and the freshness vacuuming can start! Odour molecules as well as animal hair and dust are absorbed and bound in the water. The air is 100% noticeably refreshed.

100 %  
noticeably  
refreshed  
air

## ACCESSORYS VARIETY WHICH MAKES ANIMAL LOVERS HAPPY.

Thanks to its bypass drive technology, the bagless THOMAS CYCLOON HYBRID provides 1400 Watt, works continuously with high suction power and the models can also score with the accessories.
