

Eye Care Concealer

2-in-1 revitalizing tinted eye contour cream.

A true 2-in-1 eye-perfecting product, Eye Care Concealer covers and lastingly corrects the appearance of dark circles and helps reduce puffiness.

The skin of the eye contour area is the thinnest and most fragile part of the face. It lacks sebaceous glands and collagen and elastin fibers. With 22 muscles that are constantly moving, it is extremely active and is the first area to show signs of aging. Signs of fatigue may then appear prematurely. Dark circles and puffiness are a key concern in terms of esthetics and can be triggered by various factors. Puffiness is mainly caused by water retention, skin aging and excess periorbital fat.

Essential allies against the signs of fatigue and aging in the eye contour area, Eye Care Concealers **cover and lastingly correct the appearance of dark circles while helping to reduce puffiness.**

PRODUCT RECOMMENDED FOR TIRED SKIN INSTANTS®.

Thanks to their four action platforms, Eye Care Concealers **help eliminate the pigments responsible for dark circles, reduce their appearance and the volume of puffiness, and smooth the skin around the eyes.** The tinted, fluid texture of Eye Care Concealer evens out and brightens the contours of tired eyes, for a very natural finish. This innovation offers high coverage and long-lasting hold. **Dark circles become lighter, the volume of puffiness is reduced and signs of aging are erased.**

The Eye Care Concealer delivers visible, clinically proven results. Recommended for tired Skin Instants®.

4 ACTION PLATFORMS

Anti-dark circles Platform

The **Hawthorn and Arabian Jasmine Complex** acts on the pigments responsible for the color of dark circles to reduce their intensity.

Smoothing Platform

The **Complex of Red Seaweed and Tara Fruit Extract** has a tightening and lifting effect on the eye contour area. Features are smoothed while signs of aging are reduced.

Anti-puffiness Platform

Avocado Polyphenols revive tired eyes and give the skin vitality thanks to their anti-dark circles and anti-puffiness properties. They are known to improve microcirculation and decongest tissues, reducing swelling in the eye contour area and puffiness.

Plumping Platform

- **Blue Agave Yeast Extract.** Rich in oligosaccharides, this extract reactivates the natural mechanism of hyaluronic acid synthesis. It improves skin condition, fights the effects of premature skin aging, smooths facial features and plumps fine lines.

- **Hyaluronic acid** (High molecular weight) forms a continuous, elastic film permeable to cutaneous exchanges, retaining water to hydrate the eye contour area. The skin is therefore moisturized and protected.

PRODUCT BENEFITS

- Helps eliminate the pigments responsible for the color of dark circles
- Reduces the appearance of dark circles
- Reduces puffiness volume
- Smooths skin in the eye contour area
- Moisturizes the eye contour area

RECOMMENDATIONS FOR USE

At home, apply 2 or 3 dots of Eye Care Concealer to the eye contour areas you want to cover. Tap with your finger, a brush or a sponge to blend the product.

To correct dark circles

- Apply 3 dots of Eye Care Concealer in the hollow surrounding the dark circle
- Blend the product into the dark circle using your finger or a brush

To correct puffiness

- Apply 3 dots of Eye Care Concealer in the hollow surrounding the puffiness
- Blend the product over the entire undereye bag, going up to the lash line using your finger or a brush

To revitalize the eyes

- Apply 3 dots of Eye Care Concealer to the eye contour
- Blend the product with your finger or a brush to spread it to the outer corner
