Developments Q3 2017

The year 2017 marks the re-design phase of the strategic transformation. During this phase, BinckBank is working hard to develop and introduce new customer-tailored services. At the end of September 2017, "Binck Comfort", was launched in the Netherlands. This is an online personalized discretionary asset management service that offers discretionary management from \in 10,000 and strives for an optimal combination of risk and return. The service is complementary to "Binck Forward" and "Binck Pension" which were launched earlier in 2017. BinckBank now offers various services within the Do-it-for-me investing segment each having its own risk and return profiles. Following the "Lift" marketing campaign, "Binck Forward" has witnessed increased interest and strong growth in new customers in 17Q3. With the introduction of these new services over the past period, we have again taken a number of good steps in the strategic transformation of BinckBank. The international rollout of these services is on the agenda for 2018.

In the Self-Investment segment, Dutch and Belgian customers have migrated to the new website which has greatly improved ease of use. The ProTrader application has also been introduced, providing a fast, intuitive and fully online trading experience for highly active investors. Also, the first experiences with ProBeleggen, where customers can follow a professional investor, are positive.

Dutch and Belgian investors at BinckBank can now also benefit from securities lending. Securities lending in return for compensation is not new in itself, only BinckBank will share the benefits with her customers. Other market participants also lend out customer securities, but generally keep the proceeds themselves. When opening a brokerage account, private investors often approve a securities lending clause, often without being aware of it. BinckBank will only lend the securities after explicit permission from the private customer. The proceeds, after deduction of administrative costs, will be distributed equally between BinckBank and the customer.

In Spain, BinckBank is preparing to extend its services to UK expats as a new target group. BinckBank is investigating new ways of working with other market players in implementing this. In this context, the name of the branch in Spain has been changed from Alex Spain to BinckBank Spain.

The first BinckBank Tour is completed, with the Dutch cyclist Tom Dumoulin as winner. Hundreds of thousands of cycling enthusiasts, (potential) customers of BinckBank, stood along the route or saw this international sports event on television. The BinckBank tour contributes to broader brand awareness within our geographic footprint, which is also in line with the expansion of our services.

The adjusted result after tax over 17YTD amounted to \notin 23.7 million (16YTD: \notin 23.0 million), resulting in an adjusted earnings per share of \notin 0.36 (16YTD: \notin 0.34 per share). The total revenue for the first nine months of 2017 increased by 3% to \notin 110.3 million. The adjusted operating expenses over the same period amounted to \notin 89.5 million, 6% higher than in the same period in 2016. The increase is partly due to more severe legislation and regulations and investments in the transformation process. Cost management has the attention of the board and cost control and reduction is a key focus for the coming years.

As a result of the reassessment of the deferred tax positions related to consolidated subsidiaries and associates, a one-off positive tax charge amounting to \in 2.4 million has been accounted for in the third quarter.

On 20 October 2017, BinckBank reached an agreement regarding the sale of its 100% share in Able Holding B.V. The proceeds from this sale contribute approximately \leq 0.03 to earnings per share over 2017 and will be accounted for in the fourth quarter.

As indicated before, the strategic transformation takes time, and there have been taken significant and concrete steps in the last quarter. We are confident that the rollout of the strategy will ultimately lead to a more stable income pattern and thus ultimately create value for the company's shareholders.

Reconciliation of adjusted net result with IFRS-result

The table below shows the reconciliation of the adjusted net result with the IFRS-result. Compared to the IFRS-results, the total operating expenses and taxes have been adjusted for IFRS-amortisation and the tax savings on the difference between fiscal and commercial amortisation of the intangible assets and goodwill paid on the acquisition of Alex.

(amounts in € 000's)	17Q3	17Q2	17Ytd	16Ytd
Adjusted result after tax	8.622	7.292	23.706	23.047
Adjustment IFRS amortisation	(5.378)	(5.379)	(16.136)	(16.137)
Adjustment tax benefit resulting from the difference betw een commercial and fiscal amortisation	(1.101)	(1.102)	(3.305)	(3.306)
IFRS result	2.143	811	4.265	3.604

The intangible assets, excluding the goodwill relating to the acquisition of Alex Beleggersbank, will be amortised completely at the end of 2017. As a result the adjustment to reconcile the IFRS result to the adjusted result will be disappeared almost entirely as from 2018 onwards. Furthermore this will affect the fiscal result, where amortisation of the intangible assets including goodwill leads to differences in the IFRS and fiscal ledgers. As a result of this the deduction of the amortisation of intangible assets will disappear and the company tax burden will increase compared to the IFRS result.

Strategy and prospects

The strategic transformation of BinckBank, started in 2015 with "ReThink", aims to offer the customer an even broader pallet of products and services in the services of Trading, Investing & Saving. This will enable the company to generate a more balanced and future-proof revenue stream in the medium term. After completion of the "Redesign" phase in 2017, the transformation is expected to deliver its first results with the Relaunch phase in 2018. In the past quarter, BinckBank, amongst others through the introduction of "Binck Pension" and "Binck Comfort", once again made concrete steps in realising its strategic transformation. BinckBank is convinced that rolling out its strategic transformation will realise value for its stakeholders. BinckBank is also investigating the possibilities for accelerating the "Relaunch" phase of the transformation, by collaboration with other parties, while at the same time achieving economies of scale. BinckBank may also create an even better position in the event of a possible consolidation within the sector.
