

2024 Polymer Producers Awards: Vynova Takes Top Prize, Repsol Named Supplier of the Decade

The **Polymers for Europe Alliance** proudly unveiled the winners of the **2024 Polymer Producers Awards** on **12 June** during the prestigious **EuPC Annual Event 2025**, held in Brussels under the theme: *“The Future of Plastics: Circular and Competitive.”*

Bringing together leaders from across the plastics value chain, the event served as a platform for industry stakeholders and EU policymakers to tackle the pressing challenges of sustainability, innovation, and competitiveness. The Awards Ceremony, hosted during an exclusive **gala dinner at the Marriott Grand Place Hotel**, honoured the industry’s top-performing polymer suppliers as voted by European converters.

Overall Winner 2024: VYNOVA

Belgium-based **Vynova** was named the **Overall Winner for 2024**, receiving the highest recognition for **Commitment to the European Market**, the main theme of this year's edition, with **96%** satisfaction score. **Vynova** also led the **PVC category** with an outstanding **94.44%** satisfaction score.

Overall Winner for 2024: Vynova

Supplier of the Decade: REPSOL

Marking the 10th anniversary of the Awards, a special lifetime distinction was presented to **Repsol**, recognised as the **Grand Winner of the Decade**. Since the Alliance's launch in 2015, Repsol has consistently stood out for quality, reliability, and long-term engagement with the European market.

Repsol won the Grand Winner of the decade

*“If the supply industry leaves Europe, converters are obviously next in line.” said **Ron Marsh, Chairman of the Alliance**, in his keynote. “We want to encourage policymakers to create conditions that help retain polymer production in Europe. These awards are a celebration of those suppliers who are willing to do just that.”*

2024 Winners by Category

Category	Winner	Score
EVA	ExxonMobil	70.00%
EVOH	Mitsubishi Chemical	63.33%
HDPE	Borealis	80.00%
LDPE	LyondellBasell	76.67%
LLDPE	Sabir	80.00%
PC	Covestro	79.17%
PET	Neo Group	75.71%
PP	Ducor Petrochemicals	80.00%
PS & EPS	TotalEnergies	66.67%
PVC	Vynova	94.44%

Polymers for
Europe Alliance

Winners were selected through a transparent, independent customer satisfaction survey, **voted by polymer converters across Europe**, evaluating suppliers across six criteria: **Delivery Reliability, Circularity, Quality, Communication, Innovation, and Commitment to the European Market.**

About the Polymers for Europe Alliance

Launched by the European Plastics Converters association (EuPC) in 2015, the Polymers for Europe Alliance is a confidential online platform open to all stakeholders committed to the competitive and sustainable conversion of polymers in Europe. The Alliance promotes transparency, dialogue, and data-based insights on polymer supply, with the Awards serving as a key initiative to recognise supplier excellence across Europe.

About EuPC

EuPC is the Brussels-based trade association representing over 50,000 plastics converting companies in Europe. These converters are the backbone of the plastics value chain, producing a wide array of semi-finished and finished products across sectors such as automotive, healthcare, packaging, and construction.
