

Sennheiser's TeamConnect Ceiling Medium microphone now certified for Zoom Rooms with Q-SYS

Sydney, Australia, 29 May 2025 – Sennheiser, the first choice for advanced audio technology that makes collaboration easier, today announced that its TeamConnect Ceiling Medium (TCC M) microphone is now certified for Zoom Rooms when integrated with Q-SYS, a cloud-manageable audio, video, and control Platform. The solution offers IT and AV professionals a fully networked, standards-based option for Zoom Meetings in medium spaces, simplifying installation and enabling flexible room design.

Zoom is an AI-first work platform, known for its focus on innovation and delivering features that meet customer needs. This certification underscores Sennheiser's commitment to delivering high-quality solutions tailored for today's collaboration environments. The TCC M integrates seamlessly with Q-SYS, offering deeply integrated control that simplifies system design and streamlines deployment and management for enterprise spaces.

"We continue to partner with leading meeting application providers to expand the seamless integration capabilities of our TCC M ceiling microphone," said Charlie Jones, Global Alliance & Partnership Manager at Sennheiser. "With the new Zoom certification, our TCC M can be confidently integrated with Q-SYS, giving integrators yet another complete solution that is easy to deploy, intuitive to control, and ensures clear, inclusive communication for participants."

"We're pleased to collaborate with Sennheiser to deliver a certified solution that gives integrators more flexibility and confidence when designing Zoom Rooms," said Gary Evans, Director, Alliances and Ecosystem Tech Ops at Q-SYS. "This integration reflects our ongoing commitment to offering reliable, scalable options within the Q-SYS Partner Ecosystem—empowering customers to build meeting spaces that work seamlessly, every time."

The Sennheiser and Q-SYS certified Zoom solution features seamless audio integration, centralised device management, and support for intelligent features, helping organisations build and manage high-performance meeting environments that are ready for the future of hybrid work in medium and large spaces.

About the Sennheiser brand

We live and breathe audio. We are driven by the passion to create audio solutions that make a difference. Building the future of audio and bringing remarkable sound experiences to our customers – this is what the Sennheiser brand has represented for more than 75 years. While professional audio solutions such as microphones, meeting solutions, streaming technologies and monitoring systems are part of the business of Sennheiser electronic SE & Co. KG, the business with consumer devices such as headphones, soundbars and speech-enhanced hearables is operated by Sonova Holding AG under the license of Sennheiser.
