for 2014**

WHAT THE AERO ZIPP DOES

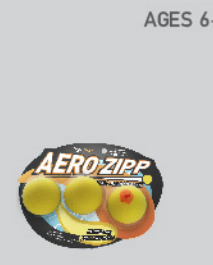

- Launches the Zipp Ball™ over 200 feet!
- Easy grip handle for better control and power
- Can be played by one or more people
- Multi-position switch allows for safe use and easy storage
- Ball holster can connect to Aero Zipp™ or attach to your bag or belt loop
- Throw Easy!

Final Throw Position

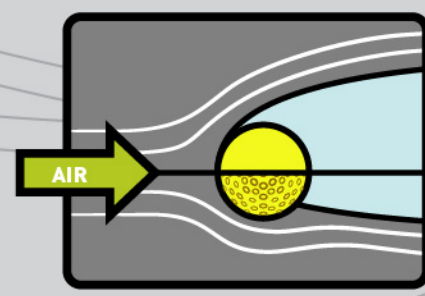

THE ZIPP BALL

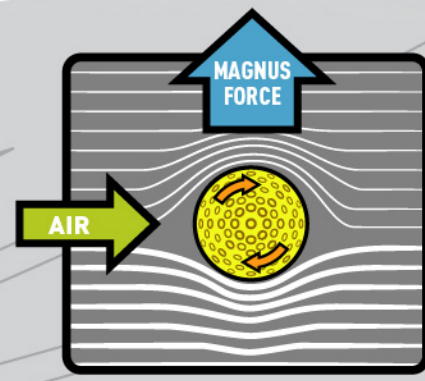

- Perfect foam ball to use with the Aero Zipp™ single and double packs
- Balls have dramatic movement caused by the Magnus Effect
- Sonic Zipp Ball™ features dual whistles for whistling travel
- Printed graphics aid in proper loading into Aero Zipp™ claw
- Soft and safe to use

HOW DOES IT WORK?

The dimples in the Zipp Ball™ reduce drag, allowing the ball to soar further!

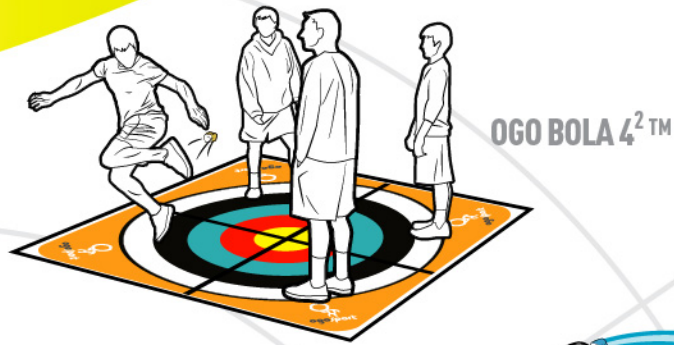

When the Zipp Ball™ is launched, the backspin of the ball causes air above it to move faster, resulting in the Magnus effect which gives the ball amazing lift!
