

RANGE ROVER
SPORT

SPORTING LUXURY

New Range Rover Sport effortlessly balances a dynamic drive with peerless refinement, using a suite of advanced technologies.

PERFORMANCE SOUND

Up to 29 speakers and 1,430W of amplifier power for one of the finest in-car audio experiences.

ACTIVE NOISE CANCELLATION

Detects and neutralises unwanted road noise, using microphones in each wheel arch and speakers in each headrest, working just like high-end headphones.

ULTIMATE COMFORT

22-way adjustable, heated and ventilated front seats, with massage function and winged headrests, set the perfect driving position for every journey.

ADVANCED WELLBEING

Maintains a healthy cabin environment using PM2.5 filtration and nanoe™ X technology to significantly reduce odours, bacteria and allergens.

EXCEPTIONAL REFINEMENT

Mixed-metal MLA-Flex architecture is 35% stiffer, providing engaging driving dynamics and built-in refinement.
