

PRESS RELEASE

REPA Middle East makes REPA Planned Preventive Maintenance Kits for Cimballi Group coffee machines available in the UAE

All the original spare parts for the scheduled services of LaCimballi, Faema and Casadio coffee machines in one convenient package

Dubai, September 21, 2026

In the frame of the partnership agreement closed in June with Cimballi Group to distribute the original parts for their coffee machines in the Middle East, Africa and India, [REPA Middle East](#) presents the Planned Preventive Maintenance kits (PPM kits) for LaCimballi, Faema and Casadio.

Kits designed to simply the coffee professionals' activity, while keeping costs under control

Composed to simplify the maintenance services and keep costs under control, the kits entail specific benefit for all coffee professionals.

For technicians, the ready-to-use kits enable quicker interventions, planned repair work, and the possibility to offer coffee shops regular maintenance. For coffee chains and QSR managers they consent to keep the total cost of ownership under control, guaranteeing constant coffee quality over time and reduce equipment downtime. For roasters, the kits consent perfect control on their positioning by preserving the quality of the extraction and the possibility to offer a new service, besides providing coffee beans and equipment.

Maintenance kits at full speed through REPA Middle East fulfillment center

With the widest stock of original parts of the Middle East, a fulfillment center in the Dubai free zone, and a team of expert ready to assist customers in their time zone, REPA Middle East provides a concrete support to all manufacturers who decide to extend their business in the area. The recent addition of the Cimballi Group PPM kits to REPA's offering allows coffee operators to improve the maintenance of the renowned brand's machines, with delivery within 24-48 hours in the Middle East, 48 hours in India, and 48-72 hours in Africa.

"Since the early days of our presence in Dubai, with our REPA Middle East Headquarters and Fulfillment Center, we have worked to create the conditions that enable OEMs to expand their business in the region by distributing mission-critical original spare parts," says **Luigi Tonon, Managing Director of REPA Middle East** who adds: *"The introduction of the new REPA Planned Preventive Maintenance Kits for Cimballi Group's brands marks another*

important step in our valuable cooperation. It aims to promote a culture of preventive maintenance that will help maintain the high performance of LaCimbali, Faema and Casadio coffee machines over the long term.”

“As an OEM, Cimbali Group is continuously focused and active in developing and providing after sales solutions. Since our company improved the Cycle Based Maintenance Plan along the past years, we have recorded a significant and more than satisfying year over year response from our partners that has been giving growth of kits supplied with a strong impact on the business and the essential management of our equipment” says **Luca Bellossi Global Business Spare Parts Manager**, who adds: *“The partnership with REPA Middle East, in such a strategic region where we work with key customers, has been signing an important new chapter about how we will develop our service guidelines. Cimbali Group and REPA will be side by side as a reference point in the area supporting the customers to operate the best service experience.”*

REPA MIDDLE EAST

REPA Middle East offers a wide selection of spare parts for foodservice, refrigeration, coffee and vending from the most important OEM brands on the market, all available through its eCommerce platform. Its spare parts experts, including a Dubai-based team, with years of customs and technical expertise, are ready to assist customers and OEMs in their time zone. The local fulfilment center in Dubai - stocked with mission-critical original spare parts - allows to speed up maintenance of equipment and distribution of spare parts while keeping costs down, thanks to fast, local availability.

REPA Middle East is part of REPA, the European division of Parts Town Unlimited.

CIMBALI GROUP

Cimbali Group is among the leading producers of professional coffee and milk beverage machines and coffee shop equipment. The Group, which includes the brands La Cimbali, Faema, Slayer, and Casadio, operates through two production facilities in Italy and one in the United States (Seattle, producing Slayer-branded machines), employing approximately 750 people in total. In 2019, with the acquisition of Keber, an excellence brand for professional coffee grinder production based in Dolo (Venice), production sites increased to four.

The Group's commitment to promoting espresso culture and local heritage was realized in 2012 with the founding of MUMAC – Museo della Macchina per Caffè, the first and largest permanent exhibition dedicated to the history, world, and culture of espresso machines, located within Cimbali Group's headquarters in Binasco. MUMAC hosts MUMAC Academy, Cimbali Group's coffee machine academy, a center for training, dissemination, and research.
