

IM Ticket:**Rostering Physician and Patient Counts****Data Sources:**

- Corporate Provider Database (CPDB)
- Client Agency Program Enrolment (CAPE)
- December 2023 Postal Code Conversion File (PCCF)
- July 2023 Population Estimates for Census Subdivisions

Criteria:

- All information current as of the report run date.
- Physicians and groups with active registration status.
- Physicians with signatory, income stabilization (IS) or new graduate entry program (NGEP) affiliations to any primary care models.
- All rostered patients (enrolled or assigned).

Caveats:

- All captured data is based on physician practice address and is limited to the patients rostered to those physicians.
- Any patient counts between 1 and 5 have been suppressed. In these cases, the rostered patient counts have been replaced with a value of '<1to5>' and the corresponding percentage value has been changed to '<na>'. Additionally, totals are unavailable due to the suppression of small cell counts.
- Not included in the results are:
 - All non-primary care physicians (e.g. fee-for-service physicians) (they do not roster patients).
 - All primary care based locum physicians (they do not roster patients).
 - All unattached or non-rostered patients.
- Captured Patient Enrolment Model (PEM) Descriptions:
 - BSM: Blended Salary Model (or Community Sponsored Agreement)
 - CCM: Comprehensive Care Model
 - COE: GP Focused: Care of Elderly (Enrolment)
 - FHG: Family Health Group
 - FHN: Family Health Network
 - FHO: Family Health Organization
 - GHC: Group Health Centre
 - HIV: GP Focused: HIV
 - RNPGEA1: Rural & Northern Physician Group Agreement (Group 1): Northern Group Funding Plan (NGFP)
 - RNPGEA2: Rural & Northern Physician Group Agreement (Group 2): Community Sponsored Contracts (CSCs)
 - SLA: Sioux Lookout Regional Physicians Services Inc.
 - STJ: St. Joseph's Health Centre
 - WAHA: Weeneebayko Area Health Authority
- Assigned patients are exclusive to FHG physicians and are very limited in quantity (approximately 0.48% of total reported rostered patients).

Data Issues:

- Two CSDs are shared/split across more than one OH Region:
 - Grey Highlands CSD is shared/split across both the Central and West OH Regions.
 - The Blue Mountains CSD is shared/split across both the Central and West OH Regions.
 - At the detail level, the estimated population is duplicated for both rows. The total has been adjusted accordingly.
- Two CSD names exist under a single CSD_UID:
 - Both 'Chippewas of Rama First Nation' and 'Mnjikaning First Nation 32' share the same CSD_UID.
 - The CSD name was manually adjusted to only reflect 'Chippewas of Rama First Nation'.

Run Date:

- October 2024

IM Ticket:

Rostrer Physician and Patient Counts: Rostrer Physicians Aged 60 or Greater and Related Age Breakouts

- All captured data is based on physician practice address and is limited to the patients rostrer to those physicians.
- The values provided for physicians aged '60 to 64', or '65 or greater' (columns G through N) are subsets of the totals provided for all rostrer physicians (columns E and F)
- The values provided for rostrer physicians aged '60 or Greater' (columns O and P) are combined totals based on columns G through N and a subset of the totals provided for all rostrer physicians (columns E and F).
- Any patient counts between 1 and 5 have been suppressed. In these cases, the rostrer patient counts have been replaced with a value of '<1to5>' and the corresponding percentage value has been changed to '<na>'. Additionally, totals are unavailable due to the suppression of small cell counts.

Please see the 'Release Info' worksheet to find out more about the data sources, criteria, and caveats related to this report.

IM Ticket:

Rostering Physician and Patient Counts: Rostered Patients Aged 60 or Greater and Related Age Breakouts

- All captured data is based on physician practice address and is limited to the patients rostered to those physicians.
 - The values provided for rostered patients aged '60 to 64', '65-69', '70-74', '75-79', or '80 or greater' (columns F-O) are subsets of the totals provided for all rostered patients (column E).
 - The values provided for rostered patients aged '60+' (column P) are combined totals based on columns F through O and a subset of the totals provided for all rostered patients (column E).
 - Any patient counts between 1 and 5 have been suppressed. In these cases, the rostered patient counts have been replaced with a value of '<1to5>' and the corresponding percentage value has been changed to '<na>'. Additionally, totals are unavailable due to the suppression of small cell counts.
- Please see the 'Release Info' worksheet to find out more about the data sources, criteria, and caveats related to this report.
