

INTRODUCTION

We are pleased to invite you to the launch symposium of LIFT, the Leuven Intestinal Failure and Transplantation center. LIFT is a unique and multidisciplinary program for patients who are dependent on (home) parenteral nutrition and/or need intestinal or multivisceral transplantation as a life-saving treatment. The program involves gastroenterologists, transplant surgeons, intestinal failure surgeons, vascular access surgeons, nutrition and vascular access specialist nurses, pharmacists, pathologists and dietitians.

The program of this first LIFT symposium includes a wide variety of topics on intestinal failure and transplantation presented by a distinguished international faculty. The first part of the day will focus on the challenging treatment of intestinal failure, including novel hormonal therapy and surgical lengthening for short bowel syndrome. Indications, results and multidisciplinary follow-up of intestinal and multivisceral transplantation will be discussed in the second part of the program.

We look forward to welcoming you in Leuven!

Intestinal Failure and Transplantation Symposium

Launch of LIFT: Leuven Intestinal Failure and Transplantation center

University Hospitals Leuven
January 20, 2017

AGENDA

8.00 – 8.30: Registration

8.30-8.35 Welcome

(M. DECRAMER, CEO University Hospitals Leuven)

8.35-8.40 Introduction

(J. PIRENNE, Leuven)

LIFT PART 1

Medical management of Intestinal Failure

Chairs: G. GONDOLESI Buenos Aires
C. MATTHYS, Leuven

8.40-9.05 Intestinal failure: what's in a name? (T. VANUYTSEL, Leuven)

9.05-9.30 The role of the dietitian in the management of intestinal failure. (A. CULKIN, London)

9.30-9.55 Medical management of high-output stoma and entero-cutaneous fistulae. (S. GABE, London)

9.55-10.20 Complications of home parenteral nutrition. (M. HIELE, Leuven)

BREAK 10.20-10.50

LIFT PART 2

Special Populations, New Therapies and Surgical Topics in Intestinal Failure

Chairs: D. MONBALIU, Leuven
I. HOFFMAN, Leuven

10.50-11.15 Home parenteral nutrition in patients post-bariatric surgery (A. VAN GOSSUM, Brussels)

11.15-11.40 Multidisciplinary care of children with intestinal failure: experience of GRIP. (R. TAMBUCCI, Brussels)

11.40-12.05 The role of hormonal therapy – more than support? (F. JOLY, Paris)

12.05-12.30 Challenges and advances in vascular access surgery. (M. STAS, Leuven)

12.30-12.55 Challenges in intestinal failure surgery. (A. DE BUCK VAN OVERSTRAETEN)

WALKING LUNCH 12.55-14.00

Educational Grants by:

LIFT PART 3

Intestinal Lengthening and Transplantation

Chairs: A. BUTLER, Cambridge
N. KNOPS, Leuven

14.00-14.25 Surgical lengthening procedures for short bowel syndrome. (A. MORABITO, Manchester)

14.25-14.50 Intestinal transplantation: indications and state of the art in 2016. (A. PASCHER, Berlin)

14.50-15.15 Complications after intestinal transplantation. (L. SHARKEY, Cambridge)

15.15-15.40 Intestinal transplantation in Leuven. (J. PIRENNE, Leuven)

15.40-15.45 Closure of the meeting
(T. VANUYTSEL, Leuven)

15.45-17.00 BREAK and TRANSPORT to Universiteitshallen

17.00-18.30 CONTRIBUTION TO THE FIELD OF INTESTINAL TRANSPLANTATION AND ISCHEMIA REPERFUSION INJURY – public PhD Defense

L. CEULEMANS, Leuven

18.30-20.00 Reception
