

Longines Spirit Flyback

L3.821.1.53.6

The Longines Spirit Flyback is a chronograph watch with flyback function. It is the testimony to Longines' pioneering role in developing that technology. This revolutionary tool watch is now adorned with Grade 5 titanium, an alloy that is both lighter and tougher than steel.

It is powered by an exclusive COSC chronometer-certified Longines self-winding calibre with a power reserve up to 68 hours. This movement is resistant to magnetic fields and equipped with a silicon balance-spring. Water-resistant up to 10 bar (100 meters), the watch comes with an interchangeable Grade 5 titanium bracelet adapted to the case.
