

THE BEST
OF BOTH
WORKS.

RELAY

by FOSBURY & SONS

*The COVID-19 outbreak changed the world in the blink of an eye.
As an office operator we see the **future of work** evolving at an **unprecedented pace**.
Fosbury & Sons is happy to share with you that we are more than ready to respond
to this new situation with our **RELAY Program**.*

RELAY — THE BEST OF BOTH WORKS.

*/ˈriːleɪ/ : refers to Relay Racing, an
Olympic Discipline that is all about the
moment of passing the baton to the next
runner.*

Relay by Fosbury & Sons refers to the workspace before, during and after COVID-19. Relay is an abrupt change and a quest for a **new balance** between **social contact, safety, flexibility, working from home** and in the office. On one side it embodies the **health & safety measures** we take for our clients and on the other sides we encourage all companies to start defining a **culture and policy** to deal with this **new reality**, in a **sustainable** way.

THE RELAY PROGRAM CONSISTS OF 2 MAIN BUILDING BLOCKS:

HEALTH & SAFETY MEASURES

- Hand sanitizers, disinfectant spray and paper desk pads are provided.
- Our workspace and Meeting & Event Spaces are adapted to guarantee physical distancing.
- Signage will guide you through our spaces to make sure you follow the safe route.
- Increased cleaning frequency.
- Trained hospitality team at your service for all your questions.
- Updated Fons Jr. App to book a meeting room, reserve your desk before coming to the office and keep you informed with the latest news.
- Increased Wi-Fi speed and capacity to make your e-conferences run smoothly.

TAILOR-MADE SOLUTIONS

Today every company has different needs and it's crucial to offer tailor-made solutions.

- **Flexibility:** we understand that long term commitments are difficult now.
- **Downsizing:** how many of your employees need a dedicated desk daily? An optimized formula can lead to a financial benefit of 20% to 40%.
- **Upscaling:** if your office is too small to guarantee physical distancing and you will need extra space, we have offices available.
- **Mid-sized HQ + regional teams:** working from home all the time is not for everyone, but working closer to home has a positive impact on productivity, the environment and work-private balance. What about creating regional hubs for your employees?
- **Running an office is a service:** as an office operator we make sure all the health & safety regulations are in place, our clients can focus - carefree - on their businesses.

We understand that every business has specific needs,
our Office Advisors are here for you to look for the best possible solution.
