

FINAL SPEAKERS LIST

TECHNOLOGY

- [Adele Luta](#), cognitive neuroscientist at MIT. She will share how overcoming challenges as part of NASA's spacewalk instructor and flight control team motivated her to study the mind.
- [Gianpiero Lotito](#), Founder and CEO and CTO of FacilityLive, the most funded Italian high tech startup.
- [Miel Horsten](#), CEO of ALD Automotive Belgium, who will be talking about human mobility.
- [Francoise Chombar](#), CEO of Melexis. She will be talking about the consequences technological progress has for humankind.
- [Antoine De Schuyter](#) is a visual artist who will bring his interest in the interaction between music and image to the stage of TEDxBrussels.
- [Martin Bell](#), CEO of Rocket, will come to talk about how companies can embrace disruption and truly pursue their ideas of innovation
- [Georges Ugeux](#), former VP of the New York Stock Exchange, will talk about order and disorder in a new world.

ETHICS & COMMUNICATION

- [Jochanan Eynikel](#), expert human-centered entrepreneurship and future thinking at think tank ETION, will share his vision on ethics and robotics.
- [Marion Vagner](#) is a former software engineer turned journalist covering science & education for RTL TVI, ARTE Info, etc.
- [Bea Ercolini](#): as a pioneer in fighting against street harassment and sexism, she founded Touche Pas A Ma Pote, an actual and BNW-relevant topic.
- [Dries Depoorter](#), digital artist tackles in a thought-provoking way issues like social identity, encryption and (the lack of) protection of our online privacy.
- [Heather Grabbe](#) is Director of the Open Society European Policy Institute, the EU policy arm of the Society established by George Soros.
- [Gert Olefs](#): He truly believes that world peace can be a characteristic of A Brave New World.
- [Howard Gutman](#), former US ambassador to Belgium, will be looking at leadership in A Brave New World. Who will hold the keys?

DESTINATION

- [Petra De Sutter](#) will be talking about how Huxley's views on reproduction have almost all become reality. The main question is "are we ready for this...?"
- [Stephanie Roland](#) is a visual artist who uses a multidisciplinary approach to work with a variety of media, making use of photography, film, printmaking, sculpture, installation, and digital technologies.
- Sylvie Depauw, Bart Maris, Kristien Hemmerechts: a soprano, trumpet player and writer respectively, the trio bring a performance that has Maria Nys Huxley – wife of – at its center.
- [Jonathan Kubben Quiñonez](#): the mastermind behind the 'Mom I'm Fine' social channels, will be talking about the future and role of social media.
- [Deborah de Robertis](#) is a visual artist and performer. She will be talking about Huxley's forecast about the porn commercialization in the BNW.
- [Damya Laoui](#), Algerian researcher at VUB, specialized in new immunotherapies for cancer, and recently named one of the Innovators Under 35 by MIT. She will talk about potential new personalized immunotherapies.
