

HOLIDAYS IN THE CITY

Tosca Blu Shoes SS2016 collection brings the emotions and colours of a seaside holiday to the city.

Summer in the city could be just the time to fight the closeness and traffic with a different spirit, expressed through an eclectic look, rich in detail and underlined by very colourful accessories in a mix of motifs and patterns.

With the new Tosca Blu Shoes collection the holiday mood comes out, in among the buildings downtown, stylish and bubbly, in shoes that stand out, getting out of a taxi, on the feet of dynamic women wanting the right mix between style and comfort.

Allegro like a day on the beach but just perfect for urban life, the Spring Summer Tosca Blu Shoes live in two different but complimentary worlds, united by a mix and match of materials, prints, hues and decorations. The models are versatile and always characterised by a hint of femininity, with décor and colours to dress flat ornamented and casual sandals, wedges and court shoes, flip flops and masculine lace-ups, sabots and clogs. Absolutely new for the season and a symbol of the union between sport and feminine chic are sneakers with a fresh 4 cm internal wedge: there but invisible, giving a new line to sports shoes.

MIXING AND MATCHING MATERIALS AND WORKING

The collection combines materials to create new glamorous style ideas: patent is punched, canvas printed and glossy comes in jungle motifs, sequins meet suede, floral fabric is enriched with cabochons and mixed with iridescent metallic highlights, floral prints are over layered with mesh or glitter and studs go rubberized.

All the materials are fun, lively and attention grabbing with their trendy energy found across different models – from pumps to platforms, running shoes to stilettos – perfectly suitable for every moment in a woman's life.

The attitude is always effortless and casual, reflecting the trends dominating SS2016 and seen especially in the details: like the rubber soles offered on many models in the collection – on wedges and masculine lace-ups, sandals and matched with jewelled flip flops – enriched by decorations and material inserts, always harmonizing with the working of the shoes.

COLOUR WITHOUT LIMIT

Highly colourful with elegant, bubbly accents: Tosca Blu Shoes summer offerings transmit warmth and relaxation through brilliant, luminous tones: a catwalk of pastel roses and grass greens, blues, blacks and whites or glitter, natural beiges, fluo inserts, gold, coral and aquamarine, reds and yellows.

Into this triumph of colour are introduced decorations – like cabochons, sequins, turquoises, chains and pearls – giving even more brilliance as they intensify the dazzling spirit.

Like the mini line inspired by the beaches of Brazil and a pure South American style, with big, bold printed flowers and coloured tile applique.

SEVENTIES SPIRIT

The style of the 70s is a trend ruling the season, indicating the return of typically seventies models, like the wedge covered in leather or worked, decorated fabrics – as well as oversize 13 cm heels and plateau – or clogs in leather or glitter, with wooden soles in four different shapes.
