5 years of Grepolis: Invasion of the Birthday Snatchers

Grepolis celebrates their 5th anniversary with their Persian Conquest Event

Hamburg, October 6, 2014. After two weeks of incentives and mini-games, InnoGames concludes Grepolis' 5 year anniversary in all-out war. Fueled with vengeful hatred, Artemisia the queen of Halicarnassus has spread her troops like wildfire for the Persian Conquest Event starting today.

The premise of the event is to take back the towns Artemisia has established throughout Grepolis. The in-game event has many incentives for this task; both for individual players and alliances. The first four alliances to conquer one of her towns will receive a respective reward: a level four award for the first alliance to win over the town while the last group will receive a level one award. In addition to awards, participants of the event will receive a plethora of gifts into their extended inventory. The items are dependent on the rank and speed of the town that is claimed.

Grepolis is a strategy game set in Ancient Greece. In the free browser-based title, players are tasked with building up a vast metropolis and uniting with other players to establish a powerful military and conquer far away islands. Grepolis is also available as a full mobile app for iOS and Android.

With 130 million registered players, InnoGames is one of the world's leading developers and providers of online games. Currently, the Hamburg-based company employs 350 professionals from 25 nations. InnoGames has scored major success with games such as Tribal Wars, Grepolis and Forge of Empires.
