

Inauguration of 16 V4 Superchargers at Holiday Inn Brussels Airport

Diegem, Belgium – On June 21 at 2:00 PM, the Holiday Inn Brussels Airport will inaugurate 16 new Tesla V4 Superchargers, marking a first in Belgium. V4 is the latest version of Tesla Superchargers and allow Tesla drivers and owners of other EVs than Tesla to recharge their vehicles very fast, thanks to a charging power of up to 250 kW. In an optimal situation a Tesla Model 3 Long Range can charge up to 120 km of range in only 5 minutes.

The inauguration ceremony will be attended by officials from Tesla, Holiday Inn Brussels Airport, as well as the mayor of Diegem, Mr. Jean-Pierre de Groef.

Holiday Inn Brussels Airport, owned and operated by Pandox AB, is a full service modern hotel located in Diegem offering 310 comfortable and well-equipped rooms. The hotel benefits from a strategic location near Brussels International Airport in a rapidly developing business district.

"The installation of these Tesla V4 Superchargers at the Holiday Inn Brussels Airport is an important step for Pandox AB. It demonstrates our commitment to innovation and sustainability while providing top-notch service to our customers and the Tesla community," said Mr. Aldert Schaaphok, Senior Vice President and Director of International Operations at Pandox AB.

Located near Brussels International Airport and the Brussels Ring, the strategic location of these charging stations will allow Tesla drivers to enjoy a smooth experience during their long-distance travels. While recharging, guests can take advantage of the hotel's services, including dining at the restaurant and enjoying the hotel garden.

15,000 Superchargers distributed in over 1,200 locations are available in 32 European countries, ensuring fast and efficient charging for Tesla owners. For more information on Tesla Superchargers, please visit. (https://www.tesla.com/nl_BE/supercharger).
