

## Paul Dituro

Paul Dituro earned a BS in Astronomy and Astrophysics from Villanova University and a MS in High Energy Particle Physics from Rutgers University. A disruptive problem solver, he assisted in the discovery of some of the first extra-solar planets and joined in the search for the Higgs Boson at the Fermi National Accelerator Laboratory. He played for 3 years in the Rugby Super League as a proud member of the Chicago Lions. A highly ranked boxer, he competed in the Olympic Trials in 2004 and 2012. Paul spent 13 years in Special Operations, deployed to every major combat zone, and redefined multiple aspects of combat medicine. Before medically retiring from service, Paul assisted in the direction of Human Performance programs for the military's most elite units.
