

# SEAMLESS NEW INTERFACE

Control all key vehicle functions with the advanced new Pivi Pro curved glass touchscreen, seemingly floating in the interior console.

## 11.4-INCH PIVI PRO TOUCHSCREEN

The new larger floating curved glass touchscreen is elegantly integrated into the redesigned centre console, providing intuitive control of key vehicle features from its larger screen. Amazon Alexa, Spotify and what3words are integrated for seamless use.

## WIRELESS CONNECTIVITY

Pivi Pro provides effortless smartphone connectivity with Wireless Apple CarPlay™. Android Auto® also connects as soon as you enter the vehicle, while Wireless Device Charging - from a new stowage area in the centre console - provides fast charging with no need for cables.

## SOFTWARE OVER THE AIR

Download the latest features and upgrades such as apps, maps, software and services, without the need to visit a retailer. Clients can schedule updates up to 14 days ahead, at a time to suit them.

## ALL-ROUND VISION

One of the most comprehensive suites of camera technologies in its class provides greater driver reassurance, courtesy of ClearSight Ground View™ and ClearSight Rear View Mirror™, plus 3D surround cameras.

## OCCUPANT WELLBEING

New Cabin Air Purification Plus offers one of the most sophisticated interior air quality technologies in its class, helping to promote wellbeing and heighten driver alertness by monitoring and controlling CO<sub>2</sub> levels inside the vehicle.
