

PRESS RELEASE

REPA Presents its New Catalogue “Refrigeration Components”

A powerful tool designed to support refrigeration professionals in their everyday work.

Cesena, January 28, 2026

A Useful Support to Maximize Refrigeration’s Equipment Uptime

REPA, Europe's leading distributor of spare parts for foodservice and refrigeration equipment, coffee and vending machines, and a trusted partner to OEMs, presents its new [Refrigeration Components Catalogue](#): a powerful tool designed to support refrigeration professionals in their daily work.

The catalogue gives access to an extensive range of **compressors, refrigeration units, electronic controllers, axial motor fans, fan motors**, as well as a wide selection of **components** for the maintenance and repair of commercial refrigeration systems. The dedicated section with **over 100 gasket profiles** makes it quick and easy to identify the right replacement for every application whether a custom or standard sized gasket are needed.

In addition to the traditional printed format, the **digital catalogue**, with its new “Click Me” index, allows to jump directly to the needed chapter, making it quicker to find the right commercial refrigeration’s part for every job, while a section dedicated to practical application tips provides technicians with useful advice to maximize the refrigeration equipment uptime.

Where Proven Experience Meets the Largest Refrigeration Inventory

With over 40 years of experience working directly with leading brands of refrigerators, blast chillers, and ice cube makers, REPA is a point of reference for technicians who take benefit from the comprehensive range of spare parts and components through its **app and webshop**. Here, additional technical specifications, data sheets and dimensional drawings are provided for an increasing range of items, **always in stock and ready to be delivered within 24/48 hours**.

“Our goal is to help technicians find quickly the right part and speed up the maintenance and repair of commercial refrigeration systems. With this new catalogue, we wanted to give refrigeration technicians a tool that truly supports their daily challenges” says Frank Wuchenauer, Director Product Refrigeration at REPA, who adds: *“Every feature has been designed to help professionals identify the right component faster and keep systems running at peak performance. At REPA, we aim to be the partner every technician can rely on, with the widest refrigeration assortment always available and ready to ship.”*

REPA

REPA is Europe's leading distributor of spare parts for foodservice and refrigeration equipment, coffee and vending machines, and a trusted partner to OEMs, delivering the right part at the right time.

With the world's largest inventory of in-stock original and universal spare parts, consumables and accessories, and a state-of-the-art network of automated fulfillment centers across Europe and beyond, REPA ensures the fastest delivery times in the industry.

AI-powered tools, 360° images, detailed exploded views, technical manuals and other search features available on its eCommerce platform and mobile app make part identification and ordering seamless. A team of industry experts speaking more than 20 languages helps customers find the perfect solution for every repair.

With REPA, keeping foodservice equipment running at its best every day has never been easier.

REPA is the European division of Parts Town Unlimited.
