

## **Press release**

### **Telenet concludes agreement with Norkring België NV**

**Mechelen, February 18, 2010** - Telenet signed an agreement with Norkring België NV concerning the use of capacity on the latter's broadcasting infrastructure network. This will enable Telenet to offer digital TV and radio services through the digital ether in Flanders and Brussels. Generally, Telenet's services are available through the cable network.

Through this agreement, Telenet will be able to offer digital TV and radio services - beyond the traditional home - to secluded homes, caravans, holiday homes and cars. Telenet wishes to interact with the customer and to expand its product offering in order to respond to the changing trends in radio and TV consumption.

Further information about the product and channel offer will be announced at a later stage.

#### **About Telenet**

Telenet is a leading provider of media and telecommunication services. Its business comprises the provision of cable television, high speed internet and fixed and mobile telephony services, primarily to residential customers in Flanders and Brussels. In addition, Telenet offers services to business customers across Belgium under the brand Telenet Solutions. Telenet is listed on the Euronext Brussels Stock Exchange under the ticker symbol TNET and is part of the BEL20 stock market index.
