Venue see programme [here](#)

EU Sustainable Energy Week showcases activities dedicated to energy efficiency and renewable energy solutions. It is designed to spread best practices, inspire new ideas and build alliances to help meet the EU's energy and climate goals. In 2015, EUSEW is celebrating its 10th anniversary.

The Week contributes to achieving the European Union's energy policy targets within the fields of renewable energy sources, energy efficiency and clean transport.

The EUSEW is organised by the Executive Agency for Small- and Medium-Sized Enterprises (EASME) on behalf of the European Commission's Directorate-General for Energy.

Audiovisual and editorial material as well as professional pictures are made available for journalists on EUSEW online press corner: <http://eusew.eu/press-corner/editorial-material>
