

### **Curling - "Shamble (single edit)"**

I've been told  
That's the way that it goes when you're dead to feeling  
And holy shit  
Someone needs to kick my ass  
To get back that feeling

I've been down  
Not enough  
But I know  
Still I try  
To take this  
Love of mine  
And run  
Take this  
Once in a lifetime

On the desert plane of love  
You lost your mind  
Forever  
Breathe out  
Nothing

### **Sea Dramas - "Running Thoughts"**

Fate is so obtuse  
no hard proof just plain old truth  
if you stay another day  
my memory wouldn't need to reevaluate  
my thoughts they run away with you  
Fain to follow soon  
postulate my servitude  
it starts to spark, it's safe to say  
when you're away my mind doesn't hesitate  
my thoughts they run away with you  
my thoughts they run away with you  
it could happen it could be real

### **Jeff Moller - "During Retrograde"**

Oh babe I'm reeling over all that's been done  
I'm just not sure about seeing anyone  
Drawing all the curtains, pulling down all the shades

Going through all the motions during retrograde

Oh babe I'm reeling over all that's been done  
I'm just not sure about seeing anyone  
Downtown past the rail cars, everyone's blank face  
Going through all the motions during retrograde

I'm still reeling babe  
During retrograde

Retrograde  
During retrograde  
During retrograde  
During retrograde  
During retrograde

I'm still reeling babe  
During retrograde

### **Half Stack "Diamond Dancer"**

Well it's an old one, but I know it's right  
You can be a cold one, when I'm a fool in your eyes  
But I like staying up, to hear what's in your head  
Yeah I like waking up, and laying in my bed  
Wasting time instead

Keeping time, keeping true  
Keeping track of me for you  
Falling down, nothing's new  
And I'm falling down, always falling for you

So let's just keep it easy, let's keep it cool  
I won't try to change your mind, if you don't change my blues  
Cause I don't have the answers about what to do  
But I'll waste my days and night and night just to show it's true  
And do it all for you

Keeping time, keeping true  
Keeping track of me for you  
Falling down, nothing's new  
And I'm falling down, always falling for you

### **Well Well Well - "Summertime Heat"**

Turn up the dials  
Got a feeling I'll like this beat  
You can roll down the window  
Only if you can stand the heat  
Stuck in Encino  
3pm on a gridlocked street  
My engine is begging  
Wants to know where that highway leads

Summertime Heat  
Got me sweating too much  
Wearing my jeans  
With the cuffs rolled up  
Drive 80 down the 101  
Smooth Jazz FM 88.1

The valleys on fire  
Smoke so thick I can barely breathe  
Roll down that window  
Getting hot in these 503s  
Escape to the coastline  
Need my fix of that ocean breeze  
Crank up the radio  
Almost there now I'm feeling free

Summertime Heat  
Got me sweating too much  
Wearing my jeans  
With the cuffs rolled up  
Drive 80 down the 101  
Smooth Jazz FM 88.1

### **Natural Bridges "Shake It Loose"**

I've been out front and I've dragged behind  
Walked in the rain and stood in sunshine  
A moment of peace is so hard to find  
Grass growing through the cracks hanging on to the hands of time

Shake it loose, now  
Hear the voices  
Singing all around me

Telling me their stories

A crow got its wing clipped by a car  
And lays dying in the corner of someone's yard  
When you're flying low, you don't fall too far  
Never know when they're going to pull your card

Shake it loose, now  
Hear the voices  
Singing all around me  
Telling me their stories

### **Holy Matter - "Wishing Well"**

I never knew how much could hurt you  
I never knew how to make you cry  
I never knew how love could hurt you  
And why  
Jealousy versus wonder and desire to define  
What he brings to me is clear inside my mind  
But I'm not gonna be  
Not gonna be  
Never gonna be  
Someone could who could change him, no  
When I see him out in the courtyard  
The moon is full but I just walk away  
'To everything, there is a season' they say  
And I'm not gonna be not gonna be never gonna be  
The one who could change him, no

### **Donald Beaman - "Old Universe"**

Drawn by the light  
Through an aimless day  
Knowing the night  
Is never far away  
When in your eye  
I see the curve of the Earth  
And the sun as it was  
In the old universe  
At the edge of the light  
Crowned by the shade  
Of sun through the leaves  
And the gentle shadows they have made

When over your shoulder  
I see the curve the Earth  
And the sun going down  
In the old universe  
In your eye  
I see the curve of the Earth  
And the sun as it was  
In the old universe

**Iain Mann - "Magic Tracks"**

These broken hands  
Are leaving the band  
They played the last dance and cried  
'Cause it never was enough  
These eyes  
Gonna ditch the disguise  
'Cause no kinda rising tide  
Could ever lift me up  
I'm going back  
Where redwoods speak to me  
And those magic tracks  
Are playing on repeat  
Gotta get beyond the barricades  
To solve the mystery  
Tired of this train  
Baffled of brain  
Watching the strangest things  
Travel through my mind  
I'm so high  
There's a map in the sky  
I'm hoping those pilot's wings  
Can get to me in time  
I'm going back  
Where redwoods speak to me  
And those magic tracks  
Are playing on repeat  
Gotta get beyond the barricades  
To solve the mystery  
And all the crazy sages gather round  
The secrets and sequoias come to me  
And walls of math dissolve into the ground  
And looking in your eyes I'm free

## **Go By Ocean “Peace In Your Garden (remix)”**

Leaving for the road now, east bound love on 80.  
Seem to live between a time zone here and there.  
I’m living for a love that’s never watered down.  
California miles...

Stranger found in a world where I gone feral.  
Caught between the shadows of the county line.  
They counted me out when I fell into the well.  
California miles...

Even out your days away,  
Working so hard to make the grade.  
Whichever way I gotta get back to you.

Peace in your garden now,  
There’s pieces you’re guarding now.  
There peace in your garden now.

On the way on home I’ll take it up in 1 love.  
Watch her glisten as she mends this heart again.  
I took the day so I could fall into your arms.  
California miles...

Even out your days away,  
Working so hard to make the grade.  
Whichever way I gotta get back to you.

Peace in your garden now,  
There’s pieces you’re guarding now.  
There’s peace in your garden now.
