LÄTTSÄLD
set of vases/carafes

Welcome to August at IKEA

This August is about making a creative restart. It can be about combining things in a fresh way and making rooms flexible and multifunctional. The colour palette has pastels thrown in for a twist. Patterns range from modern graphics to traditional florals. Styles can be mixed up in a playful way that brings a pleasurable harmony.

One of the news highlights is a modular storage system that works as well for the kitchen as in the bathroom, offering an exciting look available as ready-made solutions. The bathroom range is also extended with shower screens in strong glass. Our long-standing IVAR system sees some additions in the range that include mesh cabinets and bamboo doors. The month also offers a super-comfortable sofa, a dining table and two designed lamps in a modern and traditional style. Of course, there are also the smaller accessories like pots, vases and cushion covers. Enjoy!

VINLIDEN sofa

Our new VINLIDEN sofa is just as comfortable as it looks. With its high back, generous seating dimensions and soft covers, it's designed for maximum comfort. Plus, there are smaller cushions that can be used both against the armrests, but also as a lumbar support.

It's the first launch of our new sofas with a light-weight metal frame that comes flat-packed. Assembling the sofa is super-easy, and when it's time to move to another home, disassembly is just as smooth. Decide between a two-seater or a three-seater with or without chaise longue.

PH170240.JPG VINLIDEN 3-seat sofa 349,- Hakebo beige 093.046.48

Soft to the touch, the beige HAKEBO cover is made of 100% recycled polyester. This is part of our journey towards being circular by 2030.

FRÖSET easy chair

Take a seat in FRÖSET easy chair that's a perfect example of Scandinavian design. Clean lines, visual lightness and smart use of material all come together in this low-sitting chair. Being light-weight, it's easy to move around and place in many rooms, making it ideal as an extra chair for social gatherings. Choose between white, red or black stained oak veneer. They all look like icons in the making with their modern shape and low legs.

FRÖSET easy chair has a staggered sales start.

PH170243.JPG **FRÖSET easy chair.** Black stained oak veneer **79,99** 404.235.59 White stained oak veneer **79,99** 804.256.41 Red stained oak veneer **79,99** 204.296.04

Clean lines, visual lightness and smart use of material all come together in FRÖSET easy chair.

RÖNNINGE extendable table

When inviting friends over or just making room for different activities at home, RÖNNINGE extendable table gives plenty of room to grow. The smoothness of the new and easy extendable mechanism makes the table easy to transform – the extension leaf can be kept within easy reach under the table top. Made in birch, the table is durable and great for everyday use. The light birch and rounded legs give a modern Scandinavian look that will age gracefully.

PH170244.JPG RÖNNINGE extendable table 249,- 504.160.30

RÖNNINGE extendable table has a smooth mechanism for transforming the table with the extension leaf kept within easy reach under the table top.

JÄTTELIK children's series

Full of fun and adventure, our new JÄTTELIK series lets kids create a dinosaur world in their room. Mixing patterns of the brontosaurus and T-rex, the series includes patterned quilt covers, rugs, curtains, a cushion and more. The quilt covers are made of either cotton or a cotton/lyocell mix, where all cotton used comes from more sustainable sources. The firm cylinder-shaped cushion has a 100% recycled polyester filling – providing good lumbar support when sitting and reading or head support when it's time to relax. Who said dinosaurs couldn't be cosy?

PH170461.JPG **JÄTTELIK rug, flatwoven 14,99** 804.641.71

PH170464.JPG **JÄTTELIK quilt cover and pillowcase 24,99** Dinosaurs/white
504.641.15

Let dinosaurs loose in the kid's room with JÄTTELIK series including a rug with dinosaur footprints and a quilt cover with a range of dinos.

PH170460.JPG **JÄTTELIK quilt cover and pillowcase 14,99** Dinosaur/blue 704.641.24

PH170463.JPG **JÄTTELIK cushion 14,99** 204.641.74

From quilt covers to soft toys, JÄTTELIK series also includes a firm cushion filled with recycled polyester providing good lumbar support when your child wants to sit and read.

VINDKAST pendant lamp

The right lamp can bring emotionally satisfying lighting to a room. VINDKAST pendant lamp is just that type of lamp. Its beautiful white shape is like a floating cloud or pompom setting a relaxing mood light. The designer Ulrika Mårtensson wanted to make a long-lasting lamp that would always be interesting to look at:

“When designing VINDKAST, I wanted to create something timeless that one would never get bored of looking at. The ruffles of the textile are all different, they never make the same pattern. At the same times as giving a beautiful light, I wanted to give the lamp a long design life with the combination of using more sustainable materials.”

The pendant lamp is made of 100% recycled polyester. The material is very soft and gives a nice tactile quality that's perfect in a bedroom. But the lamp can be used anywhere you want to create a cosy atmosphere or make a design statement – all with a better conscience.

Fluffy like a pompom, VINDKAST pendant lamp is easily assembled over the shade ring by zipping it in place.

GALJON pendant lamp

Light up the home with a traditional style that harks back to another age. GALJON pendant lamp is made in metal and glass in a lantern design and spreads a cosy, indirect light.

GALJON pendant lamp has space for three bulbs – ideally choose decorative chandelier bulbs that enhance the traditional style.

EVALOUISE & IDALINNEA cushion covers

Beautify your home with some traditional Scandinavian patterns. EVALOUISE and IDALINNEA cushion covers bring some lovely florals to a sofa, bed or armchair. Made in 100% cotton from more sustainable sources, they're an easy and affordable way to add style and comfort too.

PH170252.JPG EVALOUISE cushion cover 4,99 304.725.26

PH170253.JPG IDALINNEA cushion cover 4,99 004.725.23

The floral patterns of EVALOUISE and IDALINNEA cushion covers bring a traditional feeling to the home.

STENMÄTARE rug

Step back and take it in. The Bauhaus-inspired pattern of STENMÄTARE rug is like a puzzle that comes together in one perfect design. The colours and soft low pile add warmth and comfort to your space. Add matching cushion covers and refresh the home in a whiff.

Furnish the floor with some retro design – STENMÄTARE rug is inspired by Bauhaus art and made in a soft low pile that adds comfort and warmth.

PILLEMARK door mat

Greet visitors with a happy welcome. The fun and colourful rainbow on PILLEMARK door mat is one that everyone can relate to, boys and girls, women and men, all around the world. It's made in the renewable material coir - a coconut fibre. The door mat brings a magical feeling when seeing the rainbow. Who knows where the pot of gold may lie?

PILLEMARK door mat always gives a bright and cheerful greeting when you step indoors. The coir material is hardwearing and perfect for entrance areas.

Coir is the seed fibre extracted from coconuts located between the hard internal shell and the outer coat of the fruit. The material is resilient and water-resistant. It has a coarse texture, which makes it suitable for hardwearing products such as door mats and rope.

LÄTTSÅLD set of vases/carafes

Penguins are not only adorable animals, but become a stylish, modern design in LÄTTSÅLD set of two vases/carafes. These ceramic decoration pieces can hold flowers or beverages as they are food-approved. And when not in use, you can pop the smaller penguin into the bigger one to save space.

Let penguins be part of your home décor – LÄTTSÄLD set of two vases/carafes can be used for flowers or beverages while adding some modern design to the home.

OMFÅNG plant pots & vase

Give your plants a facelift by placing them in OMFÅNG plant pots and vase in eye-catching colours. The pots are made in dark red or pink powder-coated steel, while the nicely shaped vase is made of blue glazed stoneware. Let them add splashes of colour to the home. The plant pots can even be used on a balcony or patio as they are approved for outdoor use.

PH170282.JPG **OMFÅNG vase 7,99** 604.639.07

H9cm 2,-/each 304.638.95

OMFÅNG vase and plant pots give your greenery a new colourful home.

IVAR cabinets & doors

The IVAR storage system in untreated wood has been a workhorse in the IKEA range for over 50 years. This month, some new additions to the system include mesh cabinets and doors made of bamboo that you can update an existing IVAR solution with.

The mesh cabinets in grey steel offer plenty of storage space for things big and small – everything from folders at the office, things in the kitchen, clothes and bags in the hall, to cleaning items and waste sorting. The steel mesh gives a sleek and industrial look.

For a more natural expression, the new bamboo doors with pine inserts offer just that. Made from renewable materials, they are a more sustainable choice and help to lower the cost of the solution compared to cabinets in the range. All proof that IVAR continues to be a system to count on, while keeping up with our times.

PH170798.JPG **IVAR cabinet with doors 79,-/each** Grey mesh 704.829.48

PH170392.JPG **IVAR cabinet with doors 79,-/each** Grey mesh 704.829.48

The IVAR frame can be painted to create a unique expression and combined with the grey mesh cabinets for an industrial style.

PH170255.JPG IVAR door 30,-/2 pack. 104.530.72

PH170256.JPG IVAR door 30,-/2 pack. 104.530.72

The new bamboo doors for the IVAR system create a beautiful natural expression that complements the frame in pine.
