At Carlson, we set the omega-3 standard *from sea to store.*

We source the highest quality, deep, cold-water fish using traditional, sustainable methods. Carlson liquid fish oils are bottled with a touch of antioxidants and are given a nitrogen flush to remove oxygen and to prevent oxidation. Our soft gels are encapsulated using the same high standards. Carlson omega-3 products are award-winning; third-party certified; and tested by an FDA registered laboratory for freshness, potency, and purity.

All Carlson omega-3s are plastic neutral. Look for the Reduced Plastic Impact seal on Carlson fish oils, and don't forget to recycle your bottle.
