

ŠKODA

DESIGN

- › It is clear from the exterior shape, modified lines and larger dimensions that this is a completely new vehicle.
- › The emotive and dynamic design with numerous crystalline elements characterises ŠKODA's new SUV design language.

PACKAGE

- › The ŠKODA KAROQ measures 4,382 mm in length, is 1,841 mm wide, and 1,605 mm high. The long wheelbase of 2,638 millimetres (all-wheel drive version: 2,630 mm).
- › Best in class luggage compartment has a capacity of 521 litres with the back seats in place. With the rear seats folded down, the volume increases up to 1,630 litres. In combination with the optional VarioFlex rear seat system, the boot space is variable and can hold between 479 and 588 litres. The seats can also be completely removed – and the SUV becomes a van with a maximum loading capacity of 1,810 litres.

EQUIPMENT

- › The freely programmable digital instrument panel is available for the first time in a ŠKODA. The cockpit display can be set to the driver's individual preferences.
- › Headlamps and rear lights are optional with full LED-Technology. In the interior with ambient lightning in ten different colors.
- › Heated steering wheel, electronic hand brake and electronic control device for tailgate – spindle drive with Virtual Pedal.

INFOTAINMENT & CONNECTIVITY

- › The infotainment is offering state-of-the-art functions, interfaces and equipped with capacitive glass touch displays of up to 9.2-inch. The top systems Columbus and Amundsen have a WLAN hotspot. An optional LTE module is available for the Columbus system.
- › ŠKODA Connect, the new mobile online services, are LTE-compatible and are divided into two categories: Infotainment Online services are used for information and navigation and the Care Connect services for assistance in case of breakdowns, emergencies and remote access.
- › The ŠKODA Connect App support the access to vehicle data from outside and a lot more services via smartphone, smartwatch, tablet or PC.

ENGINES & CHASSIS

- › Four engines with five power levels – two petrol and two diesel engines with three power levels. The displacement ranges are 1.0, 1.5, 1.6 and 2.0 l; the power range is from 85 kW (115 PS) up to 140 kW (190 PS). All powertrains feature turbo-charged direct injection units as well as stop-start technology and brake energy recovery.
- › All drivetrains can be ordered with a 6-speed manual gearbox or 7-speed DSG. The 2.0 TDI with 140 kW (190 PS) comes as standard with 4x4 drive and 7-speed DSG.
- › Driving Mode Select with the Normal, Sport, Eco, Individual and Snow (4x4) modes is available on request. The Off-Road mode with all-wheel drive improves the driving characteristics on rough terrain.

DRIVING ASSISTS

- › Comprehensive range of driver assistance systems. New comfort systems include Park Assist, Lane Assist, Adaptive Cruise Control and Traffic Jam Assist. Blind Spot Detect, Front Assist with predictive pedestrian protection and Emergency Assist serve to increase safety.

SIMPLY CLEVER

- › More than 30 Simply Clever solutions are integrated.
 - Bottle holder in the middle console allows opening bottles with one hand
 - Tablet holder in the rear with accessible power outlet
 - Plus a lot of well-known Simply Clever details like an umbrella under the passenger seats

The all-new
ŠKODA KAROQ
