

FRACTURED

— ONLINE —

THE FIRST TRULY DYNAMIC MMORPG

FACT SHEET

GAMEPLAY

Fractured Online is a dynamic, open-world sandbox MMORPG, where you define your own destiny. The unique knowledge and talent system allows skills to be discovered, learned and mastered quickly, providing new and core players with a unique experience right from the start. With the action beginning from day one, enemies are defeated through skill and cleverness, not equipment or level.

No set paths mean limitless adventure. You decide whether you explore the vast, interactive fantasy worlds, fight monsters and other players in dynamic PvE and PvP battles, gather resources, craft and enchant unique items, setup a trade empire, or grow your virtual home into a prosperous city by cooperating with other settlements or conquering them. Become the hero you always wanted to be! Less grind. More freedom and adventure.

WHAT IS FRACTURED ONLINE?

SOCIAL MEDIA LINKS

FEATURES

Fractured is "The first truly Dynamic MMORPG" because the gameplay is influenced by the actions of the players, from micro to macro level and nothing should ever be static and immutable.

SANDBOX OPEN-WORLD

Fractured Online mixes action combat with interactable environments, appealing equally to lovers of competitive and cooperative gameplay.

DYNAMIC ENVIRONMENT

Explore three different, ever-changing worlds and help to shape them to your liking. What has been true the last time you visited a place, is very likely to be different today.

COMBAT & KNOWLEDGE SYSTEM

Fractured Online breaks the boundaries of the typical MMO genre by bringing the combat style you've loved in single-player Action RPGs into a complex sandbox universe. Learn to aim, dodge and master over 400 abilities and 40 unique status effects. Defeat enemies, learn their abilities and master them for yourself.

CRAFTING SYSTEM & ECONOMY

Finding a broadsword in the corpse of a rat sounds a little unlikely? Forget about old RPG clichés and enter a world where every item is crafted by players. Exploit the uneven distribution of resources to get high profits when trading at faraway markets.

CITY BUILDING & MANAGEMENT

Looking for a new home? Find a suitable location in one of the player-run cities to build your house or start a new settlement with your guild. As a governor, you'll be able to guide its development into a social, trading, or military hub.

REWARDING PVP EVENTS

Looking for the extra kick? Asteroids host highly competitive end-game PVP events. Gather scarce resources or fight for influence for you and your guild, climbing to the top of the leader boards.
