

PRESS RELEASE

REPA Empowers OEMs and Service Centers from Rimini to Dubai

The leading distributor at SIGEP and Word of Coffee to present new services and enhanced support to manufacturers and customers.

Cesena, January 21, 2026

From SIGEP World to WOC Dubai: Hitting the Ground Running

As the new year begins, [REPA](#), Europe's leading distributor of spare parts for foodservice and refrigeration equipment, coffee and vending machines and trusted partner to OEMs, confirms its continuous support to Original Equipment Manufacturers and coffee professionals worldwide.

In the second half of January, REPA experts hit the ground running, attending two major industry events: SIGEP Show in Rimini and World of Coffee in Dubai. Here the team met OEMs and customers, anticipating its future developments in the region, while new discussions with partners, service centers, coffee roasters and equipment dealers started both in Rimini and Dubai to present tailored services for a quicker spare parts supply.

Industry Knowledge and Local Presence for OEM Growth

REPA's extensive knowledge of the coffee industry cultivated over time thanks to the close relationships with coffee operators and its numerous branches, fulfillment centers, and sales representatives around the world, has established the European distributor as a valuable partner for OEMs seeking growth through productive collaborations.

By stocking and distributing original parts, even during seasonal breaks, REPA allows OEMs to focus on the design and selling of their equipment, while guaranteeing the smooth repair and maintenance of coffee machines, grinders and other equipment. This minimizes downtime and preserves the high-performance standards required to deliver exceptional coffee experiences.

The Digital Reference for Service Centers

Through a comprehensive online platform and the app, REPA allows users to search for parts by original code, brand, product family, exploded drawings, and more. This makes REPA's extensive inventory accessible anytime, anywhere, and confirms the distributor's role as a point of reference for service centers, ensuring reliability and consistency in coffee equipment maintenance.

“With an ever-growing selection of coffee parts and accessories for new brands, and new machine models, REPA makes original spare parts available wherever and whenever they are needed,” says Gilberto Guidi, Group Director Professional Coffee at REPA. “We help manufacturers, service centers, and coffee professionals everywhere keep coffee machines running at their best by combining our global reach with a deep understanding of local markets. Over the year, new services will be launched to provide the enhanced support that our customers and partners need and deserve.”

REPA

REPA is Europe's leading distributor of spare parts for foodservice and refrigeration equipment, coffee and vending machines, and a trusted partner to OEMs, delivering the right part at the right time.

With the world's largest inventory of in-stock original and universal spare parts, consumables and accessories, and a state-of-the-art network of automated fulfillment centers across Europe and beyond, REPA ensures the fastest delivery times in the industry.

AI-powered tools, 360° images, detailed exploded views, technical manuals and other search features available on its eCommerce platform and mobile app make part identification and ordering seamless. A team of industry experts speaking more than 20 languages helps customers find the perfect solution for every repair.

With REPA, keeping foodservice equipment running at its best every day has never been easier.

REPA is the European division of Parts Town Unlimited.
