

CONQUEST HERITAGE (38 mm)

L1.649.4.62.2

It was in 1954 that Longines registered Conquest as its first collection with a protected name. The Conquest Heritage models maintain the distinctive design elements that made the original Conquest a great success, while incorporating modern technical innovations that enhance their performance and durability.

This 38 mm model features a domed brown sunray dial paired with faceted applied rose-gold-coloured indexes. The hour and minute hands are rose-gold-coloured to match the indexes, and are treated with Super-LumiNova®. The collection's signature, an 18-carat gold medallion decorated in hand-painted enamel, is featured on the screw-down case back.

Water-resistant up to 5 bar (50 m), the watch is driven by an exclusive Longines self-winding mechanical movement equipped with a silicon balance-spring and new components made of non-magnetic material. It comes with a brown leather strap.

L1.649.4.02.6
