

# The Studio Revolution.

Solid State Logic invites you to an exclusive unveiling of a revolutionary new technology set to transform the future of music production. Join us on the 24th June 2025, for a launch event marking a pivotal moment in recording and mixing innovation.

This event celebrates breakthrough advancements and pioneering technology designed to redefine professional studio workflows and reshape the art of music production and engineering. We would be delighted for you to join us.

Please [RSVP HERE](#) and be part of the revolution.

We look forward to welcoming you to **The Studio Revolution.**
