

## A blend of radiance and warm hues for the new Beleganza

**The new Beleganza by Balmain is a harmonious blend of rich chocolate hues and shimmering pink PVD. This feminine watch embodies modernity while celebrating the classic lines of the collection that inspired it. The models come in two sizes.**

A captivating fusion of elements has transformed the Balmain Beleganza collection, infusing it with a fresh aesthetic. The purity and brilliance of pink PVD complement the warmth of its chocolate hue, creating a subtle result perfectly in tune with the times. A homage to French sophistication and elegance, this line has gained a strong following since it returned to the Balmain catalogue in 2018 to become one of the Swiss watch brand's bestsellers.

The new Beleganza models are available in two diameters: 27.50 mm or 32 mm. Their chocolate dial is illuminated by 11 diamonds, beautifully accented by a fine square border. At 6 o'clock, an elegant window shows the day's date, while the slender pink PVD-coated hands match the bezel of the same colour.

The bracelet, too, features a two-tone design. Its two fine lines are adorned with vertical brushed pink PVD, contrasting with the other steel links.

Feminine and contemporary, the new Beleganza models celebrate the collection's traditional style while adding a touch of originality.

### Technical features

- **Movement:**
