

DR. ANDREW WEIL FOR ORIGINS™ MEGA-MUSHROOM RELIEF & RESILIENCE SOOTHING GEL CREAM FOR EYES

Available as from April 2020

What it is: A hydrating gel cream that soothes and helps protect delicate eye-area skin and helps to strengthen skin's moisture barrier.

Sensory Discovery:

- With Fermented Chaga, Cordyceps, Reishi, and Coprinus mushrooms, as well as Sea Buckthorn, Lactobacillus, and Camelina Oil, it instantly hydrates, calms and soothes the look of eye-area skin and helps build skin's moisture barrier to help protect from environmental aggressors and irritants.
- Helps to stabilize delicate eye area and prevent redness caused by irritation with Lady's Thistle.
- Blurs the appearance of dark under-eye circles.

Share the Story: Ingredients

- Lady's Thistle: Found throughout Italy, Lady's Thistle is a hardy plant that boasts prickles designed to protect it from predators & other external aggressors. It has been used for centuries to treat a variety of medical ailments as well as acting as an anti-irritant in skin care.
- Fermented Chaga is known to act as a powerful anti-irritant. It is believed to have "life-extending" properties. The natural process of fermentation is used in skincare to make ingredients more bioavailable to skin, allowing them to be absorbed more easily.
- Reishi, known as a symbol of longevity and called the "Mushroom of Immortality", has powerful anti-irritant properties that helps visibly soothe and calm the skin. It has been used for over 2,000 years in Traditional Chinese Medicine due to its health benefits, including immunity boosting.
- Cordyceps was used in Traditional Chinese Medicine and Traditional Tibetan medicine to address fatigue in skin.
- Coprinus, known for their powerful antioxidant properties, help keep skin looking calm and resilient.
- Sea Buckthorn, a berry from China that is known for its anti-irritant properties. It contains antioxidants and was used in the 13th century by Genghis Kahn to strengthen his soldiers to defend against his enemies.
- Lactobacillus, a popular probiotic ferment, helps strengthen skin's moisture barrier.
- Camelina Oil is derived from a flowering plant known for its calming benefits for skin.

For: All skin types. Tested on sensitive skin.

How to use: Apply to eye-area am and pm and gently massage into skin with cooling metallic tip.

Available online at www.iciparisxl.be and in store at Paris 8
