## WHERE IT ALL BEGAN

When we began operations in 2009, our aim was to take more people to more places, more often. We now fly to more than 90 destinations, and we're constantly adding new destinations to our network as we continue to grow. In 2018 alone, we carried 11 million passengers, making us the second largest carrier, by passenger numbers, operating out of Dubai International airport.

With the innovative vision and support of the Government of Dubai, we've opened up opportunities for travel, tourism and trade, and we've enhanced connectivity by increasing accessibility to and from Dubai.

*"The vision and commitment of the Government has transformed Dubai into a global centre for aviation, trade and tourism. Launched to support Dubai's thriving commercial and tourism sectors, flydubai's ambition and success embody the spirit of the city it represents. In its short history, flydubai has firmly established its place in the region. It has opened up new markets, contributed to increased tourism in Dubai and made a major contribution to the growth and connectivity of Dubai's aviation hub."*

**- His Highness Sheikh Ahmed bin Saeed Al Maktoum, Chairman of flydubai.**

## EXPLORE THE WORLD TOGETHER

In July 2017, Emirates and flydubai announced an extensive partnership which saw the two Dubai-based airlines join forces to offer customers unmatched travel options.

The partnership started with codeshare flights to just 29 cities and has since expanded to 84. It offers flydubai customers seamless connectivity to Emirates' worldwide destinations spanning six continents, while Emirates customers enjoy access to flydubai's regional network. The innovative partnership goes beyond code-sharing and offers greater frequency and easier access to more global destinations with the advantage of connecting baggage to the final destination.

To provide customers with an easy way to earn and redeem air miles, flydubai adopted Emirates Skywards as its loyalty programme in August 2018. The alignment of the programme allows Emirates Skywards members to earn Skywards Miles and Tier Miles and enjoy shared travel benefits when flying across the combined networks.

Together we will continue to unlock the benefits of the partnership for passengers who will have the opportunity to enjoy the unique advantages that each airline offers, as well as offering greater choice and flexibility when connecting via Dubai.
