Dear Reality julkaisee uuden EXOVERB MICRO -kaikuefektiliitännäisen

EXOVERB MICRO on Dear Realityn uusin stereotuotantoon suunnattu realistinen kaikuefektiliitännäinen, joka parantaa stereomiksauksen laatua. Tehokassa ja kompaktissa äänentoistoliiitännäisessä on sama yhtiön kehittämä kaikuefektimoottori kuin aiemmin julkaistussa EXOVERB-liitännäisessä. Saatavilla on kahdeksan asiantuntijoiden käsin luomaa akustista näkymää, jotka tarjoavat autenttisen äänen mihiin tahansa moderniin äänituotantoon. Voit suoraviivaistaa miksausprosessia intuitiivisella kolmion mallisella hallintakuviolla, jonka avulla löydät täydellisen tasapainon jälkkaiun, aikaisten heijastusten ja tehosteettomien signaalien välillä.

EXOVERB MICRO provides the perfect entryway into spacious reverb, offering a selection of EXOVERB's eight most-loved acoustic presets from four categories: Ambiences, Rooms, Halls, and Plates. Each acoustic scene is based on multiple synthesized impulse responses (IRs) developed with Dear Reality's proprietary software, allowing you to create rich reverb effects that perfectly match the needs of your mix. Whether you're looking for a subtle drum room or a deep plate for vocals, EXOVERB MICRO has got you covered.

"With EXOVERB MICRO, we want to enable everyone to benefit from the latest reverb technology," explains Felix Lau, Product Owner at Dear Reality, adding that "EXOVERB MICRO's easy-to-use interface with the triangle pad offers a perfect starting point for modern music and postproduction." The results are natural reverbs with three-dimensional depth perception on all stereo playback systems – both speakers and headphones.

The EXOVERB MICRO user interface

EXOVERB MICRO features a user-friendly interface that makes adding just the right amount of reverb to any mix as easy as you can imagine. Using the triangle pad, you can simply balance early reflections, late reverberation, and dry signals to create the perfect sound. And like its big brother, EXOVERB MICRO provides instant access to essential parameters like Pre-Delay and Decay without complicated menus or sub-menus. With EXOVERB MICRO, you'll get all the power and versatility of a professional reverb tool in a compact, easy-to-use plugin.

Speeds up the creative mixing process: EXOVERB MICRO's innovative triangle pad lets you intuitively hit the sweet spot

EXOVERB MICRO is available now in the [Dear Reality store](#) for EUR/USD 25 (+ local VAT).
