

Micha Berger becomes Chief Technology Officer at Telenet

Mechelen, June 14th 2013 - **Telenet has announced that Micha Berger will lead the activities of the Engineering Department and the Service Assurance Group as Chief Technology Officer (CTO) from July 1st. He will also become a member of the Senior Leadership Team and will report directly to John Porter, CEO of Telenet.**

Micha Berger has worked for Liberty Global since 2006, initially as manager of the Engineering Department at UPC Nederland. As Vice President at Liberty Global since 2010 he has been responsible for Horizon Next Generation digital TV development and product roll-out. Before these endeavours, he gained his first experience in the cable industry at HOT Israel, where he was responsible for the development of the interactive digital service platform and the roll-out of video-on-demand.

“With the arrival of Micha Berger as our new CTO and the previously communicated appointment of Veenod Kurup as our new CIO, we have brought in more than 25 years of cable expertise at Telenet. I look forward to work both with Micha and Veenod to ensure the Telenet successes”, commented John Porter, CEO of Telenet.

With these appointments Telenet has laid a new foundation for the structure of its Technology and Infrastructure department.

Micha Berger (42) holds dual Israeli-US nationality. He is married, has three children and lives in Amsterdam at the moment.
