

### **QSC announces plugin for Sennheiser TeamConnect Ceiling 2**

**Wedemark, 1 July 2020 – QSC has announced a plugin for Sennheiser’s TeamConnect Ceiling 2 microphone. The plugin allows for drag-and-drop integration into the Q-SYS audio, video and control Ecosystem, saving programming time and resources for AV integrators, programmers and consultants.**

By deploying this plugin within the Q-SYS Ecosystem, users can easily configure and manage TeamConnect Ceiling 2, such as monitoring audio levels, and viewing, in real-time, the vertical and horizontal angle of the detected person speaking.

QSC has added a plugin for Sennheiser’s TeamConnect Ceiling 2 microphone to its Q-SYS Ecosystem

“Sennheiser is excited that QSC has added support for the TeamConnect Ceiling 2 to the Q-SYS Designer Asset Manager,” said Charlie Jones, Global Business Development Manager for Business Communications at Sennheiser. “The patented automatic beamforming technology of

the microphone combined with the ease of integration into the Q-SYS Ecosystem allows integrators to deploy more meeting rooms even quicker than before, saving time and money.”

“The reality of our world has us all reconsidering how we design an effective meeting room,” said Greg Mattson, Product Manager, Q-SYS Control, QSC. “As meeting rooms continue to evolve, we are committed to providing pre-built plugins for some of the most common meeting room endpoints to easily expand the robust control capabilities of the Q-SYS Ecosystem.”
