11:00 12:00

# Mobilising support for patent law reform locally and internationally

In this webinar, we will discuss overcoming barriers to medicines, vaccines, and medical tools for cancer, diabetes, HIV and TB, as well as COVID-19. This is even more important as the World Trade Organisation's TRIPS council meets on 30 April to discuss the proposal by South Africa and India, supported by over 100 countries, to waive patents on COVID-19 technologies and medicines.

**Achal Prabhala**

Coordinator of the AccessBSA project

**Leena Menghaney**

Director MSF Access Campaign: India and South-Asia

**Umunyana Rugege**

Executive Director SECTION27

**Dr Tlaleng Mofokeng**

United Nations Special Rapporteur on the right to health
