

*For 20 years, Turnitin has developed products to help institutions uphold and support academic integrity. Authorship Investigation continues our commitment to that mission. - Chris Caren, Turnitin CEO*

*This newest product from Turnitin builds on our commitment to championing the ideals and values of academic institutions around the globe. - Ron Park, CTO and SVP Engineering and Operations at Turnitin*

*Our University partners are supporting our product development through conceptualization, research, user experience and beta testing. Their guidance helps ensure that Authorship Investigation will support academia in addressing the growing challenge of contract cheating. - Bill Loller, VP of Product Management at Turnitin*

*Authorship Investigation will initially aid institutions all over the world in analyzing work written in English and investigating if it may have been authored by someone else. - Bill Loller, VP of Product Management at Turnitin*
