## Jo Malone London Celebrates The Beloved English Pear

Open the door to the enchanted world of English Pear & Freesia and discover special-edition designs, an additional product and a brand-new light floral scent offering a fresh take on this timeless ingredient.

English Pear & Freesia imagines orchards steeped in golden sunshine, warming the russet curves of luscious pears. The sensuous freshness of the just-ripe fruit wrapped in elegant white freesias, enhanced with rose and rooted in patchouli.

Top: Williams Pear

Heart: Freesia

Base: Patchouli

‘The freesia is a classic of both gardens and orchards, with delicate white petals perched on top of long green stems. It balances the juicy fruitiness of English pear with a lovely, elegant softness’

Céline Roux, Global Head of Fragrance

The delightful fruity scent can be enjoyed in a special-edition cologne, housed in a fluted glass bottle, and Home Candle, finished with a decorative lid. Leave skin feeling silky smooth and with a subtle sheen with English Pear & Freesia Scented Body Powder. Encased in a mirrored compact, it includes a kabuki brush for on-the-go application.

A selection of curated gift collections is also available, filled with English Pear & Freesia home and bath & body essentials in various sizes.

New English Pear & Sweet Pea Cologne takes the wearer to sun-warmed orchards springing to life as tempting green pears fill the branches. The luscious fruits are enveloped in softly scented pastel sweet peas, nestled on a base of powdery white musk. This garden-fresh light floral fragrance looks to the blousy, fragrant sweet pea to create a new marriage of fruits and flowers.

Heart: Sweet Pea

Base: White Musk

‘We had to have all the juiciness of the pear at the centre, but I also wanted to celebrate the soft, pastel hues and delicate, playful petals of the sweet pea’

Céline Roux

English Pear & Freesia and English Pear & Sweet Pea colognes are created using a 100% natural pear fruit extract. An upcycled ingredient utilising a by-product of the food industry, the process was exclusively developed for Jo Malone London. Each bottle contains the equivalent of one pear.
