OUT OF THE BLUE

Tiffany

Blue Book 2023: *Out of the Blue* celebrates Jean Schlumberger's fascination with the sea and its whimsical creatures. The legendary Tiffany & Co. designer choreographed unparalleled manifestations of its majesty and mystery. Designed by Nathalie Verdeille, Chief Artistic Officer, Jewelry and High Jewelry, Tiffany & Co., the new Tiffany High Jewelry collection expands on the collection's existing themes—Shell, Coral, Pisces, Star Urchin and Starfish—reimagining Schlumberger's vision in a new theme: Sea Anemone.

With geometric and stylized aesthetics, each creation exudes alluring beauty, realized through unparalleled innovation and exceptional craftsmanship. A deep dive into aquatic life, Blue Book 2023: *Out of the Blue* reimagines a legacy as the surreal becomes even more fantastical.

SHELL

The seashell is a natural treasure of the sea. Each is unique—perfect or imperfect—and always beautiful. This theme explores the three-dimensionality of these objects sculpted by the ocean, expressed through designs that uplift green and blue cuprian elbaite tourmalines.

CORAL

Coral's beauty lies in its natural pattern: a magnificent mosaic. This theme re-envisioned its forms and exuberant hues in an array of designs showcasing unenhanced purple sapphires and diamonds.

SEA ANEMONE

The sea anemone lives at the bottom of the ocean as if frozen in a state of perpetual bloom. This theme evokes its splendor with highly innovative designs that exemplify Tiffany's savior faire, such as gemstones set *en tremblant* or inverted settings that lend a spiky texture to the creations.
