

Reinventing the Bottle

Since 2009 the equivalent of 310 million plastic water bottles have found a new life in Timberland products.

Reuse, Reduce, Restyle

In Timberland's ongoing commitment to the planet, over 400 tonnes of plastic waste have been given a new identity through their collections.

Plastic in Perspective

From plastic pollution to stylish substance, ReBotl gives plastic bottles a new lease on an eco-friendly life.

Recycled to Reinvention

As part of Timberland's environmental engagement, in the past 10 years millions of plastic bottles have been converted into new products.

Refitting the Bottle

Meet the new face of plastic. Timberland has recycled millions of bottles in the name of sustainable fashion.

Your New Favourite PET

Putting the substance back in style, Timberland has recycled millions of plastic bottles since 2009.
