The terraces are carved into the hillsides, creating a series of concentric, wavy lines that follow the contours of the land. A small, irregularly shaped pond with brownish water is situated in the upper left quadrant, surrounded by the terraced fields. The overall scene is vibrant and shows a harmonious blend of human agriculture and natural topography.

About **us.**

Connecting and reconnecting with people and places. It's important to us all. Whether it's a trip home to see the family, a culture-filled weekend or a business trip to a new market, our diverse network can get you there.

We have the potential to connect Dubai to a population of over two and a half billion people, creating opportunities for our passengers to enjoy new connections in trade, tourism and travel.

We're opening up the world; go explore it.

Our **fleet.**

Young and efficient, our fleet continues to grow as we receive delivery of aircraft from the order announced at the Dubai Airshow in 2013 for 100 Boeing 737 Max 8s and 11 Next-Generation Boeing 737-800s.

In 2017, we finalised an order to purchase 175 additional 737 MAX aircraft, the largest single-aisle jet order in Middle East history. This order allows us to take advantage of the 737 MAX family's flexibility and commonality, while using the unique size and range of the MAX 8, MAX 9, and MAX 10 to suit our growing network.

We were the first airline in the Middle East to receive the Boeing 737 MAX 8 which entered into service in the second half of 2017.

The flydubai **experience.**

Over the years, we've gained loyal customers from all around the region because we're dedicated to providing a better travel experience.

Our cabins are bright and airy. Combined with the benefits of the Boeing Sky Interior and a lighting system that helps minimise jetlag, the onboard environment allows you to stay relaxed while flying.

As for our cabin crew, they're friendly and well-trained and have passion for making your flight as enjoyable as possible.

You can explore our onboard entertainment and catch up with the latest movies, TV shows and music. And we've not forgotten about our younger flyers with hours of entertainment dedicated just to them.

Stay connected with our WiFi packages and access the internet using your phone, tablet or laptop. There's also an option to purchase live TV during the flight so that you can stay up-to-date.

Economy Class.

In Economy Class, you can expect an affordable and relaxing journey. There's a variety of food options available on board – snacks can be purchased on all flights, while on select flights over 90 minutes, we offer delicious hot meals which can be pre-purchased when you book. And because every seat is fitted with an individual state of the art HD touchscreen, you are in full control of your entertainment experience.

On the ground, you'll benefit from faster check-in and priority ground services including a dedicated check-in desk, boarding gate and bus service. You can relax before your journey in our Business Class lounge at Dubai International Terminal 2 and at airport lounges across most of our network.

On board, you'll enjoy a personal, professional and friendly service from a member of crew dedicated to the Business Class cabin. Choose a delicious meal from an internationally-inspired menu for flights over 90 minutes. For shorter flights, lighter cold meals will be served.

It's a flexible, cost-effective and highly efficient service which uses SkyChain, a fully-integrated air cargo management solution, to ensure customers have accurate, up-to-date information about shipments from drop-off to delivery.

Together, explore **the world.**

In July 2017, Emirates and flydubai announced an extensive partnership which saw the two Dubai-based airlines join forces to offer customers unmatched travel options.

The partnership offers flydubai customers seamless connectivity to Emirates' worldwide destinations spanning six continents while Emirates' customers will enjoy access to flydubai's regional network and previously under-served destinations.

The innovative partnership goes beyond code-sharing and offers greater frequency and easier access to more global destinations with the advantage of connecting baggage to the final destination.

This is an exciting first step in unlocking the benefits of the partnership for passengers who will have the opportunity to enjoy the unique advantages each airline offers as well as greater choice and flexibility when connecting via Dubai.

This is just the start and there will be many more opportunities for both airlines' passengers to explore the world together.
