

2014 EUSEW CONFERENCE
Energy and Community:
a partnership for development
27 June 2014 | Brussels
10.00 am > 02.00 pm

AUTOWORLD
Parc du Cinquanteenaire 11

Dear Madam, Dear Sir,

On the occasion of the EU Sustainable Energy Week organised from June 23 to 27, 2014 in Brussels, SACCHI CONSULTING is promoting a one-day event dedicated to community ownership opportunities in the field of renewable energies and is very happy to invite you to the conference **“Energy and Community : a partnership for development”**, with the support of the European Commission.

The event is scheduled **Friday June 27 from 10.00 am to 02.00 pm** in Autoworld, Parc du Cinquanteenaire 11 in Brussels (free parking available).

PROGRAM

Panel members

- **Evelyne Huytebroeck**, Minister of Environment, Energy and Urban Renovation, Brussels Capital Region
- **Representative from Italian government**
- **Representative from EU Commission**
- **Dirk Vansintjan**, President of REScoop.eu for Ecopower cvba, Coordinator of the REScoop 20-20-20 project
- **Johan Blom**, Co-Managing Director, Wind Central
- **Marleen Mouton**, Regulatory Director, PWC
- **Peter Garré**, CEO Bopro, Administrator CVBA Zonneberg and Registered Member of Breeam Communities

10.00 > 10.40

“Legislative Framework in the EU and in the Member States”

This panel discussion will assess the legislative framework of Community Led Local Development projects according to EU and Member States legislation. Special attention will be dedicated to the ongoing process of renegotiation of cohesion policy funds for the period of 2014-2020.

10.40 > 11.20

“Community energy - success stories”

The potentiality of a partnership between community and renewable energy has already been implemented in several projects and different types of renewable energies have been successfully realized since a few years. Representatives of concrete cases will share their experience.

11.30 > 12.10

“Economic development prospects”

Discussing and analysing about economic data, studies and concrete cases. Trying to assess pros and cons of different economic options available for developing local energy production projects.

12.10 > 12.40

“Local energy and new mobility: how to create a synergy”

The debate will try to assess all potential synergies in between local production of energy and changes in the way mobility is conceived. This will try to bring all possible benefit for new mobility from community energy philosophy.

12.40 > 14.00

Lunch

Registration required on the website www.eusew.eu or through the link [click here to subscribe](#)

We look forward to meeting you at this exciting event.

Yours sincerely,
SACCHI CONSULTING
