

X O'NEILL JONES

In 2018 O'Neill celebrates its awesome 10-year collaboration with big mountain charger Jeremy Jones. Throughout their relationship they have sought to create hardwearing, functional and good-looking mountain gear that in the spirit of Jack O'Neill allows riders to be "first in, last out" - or in the context of Jones, first up, last down.

This season the O'Neill X Jones line goes deeper in its pursuit of high-tech freeride comfort incorporating engineered knit, stretch comfort and 3D patterns to perfect the time riders spend in harsh mountain elements.

In 2007 Jeremy founded Protect Our Winters, a global cause uniting the winter sports community against climate change. Sometimes, the most indelible mark we can make on the world is to not make one at all. O'Neill supports POW.

Womens Jones Dark Star Jacket
8P5000_1900

Recco Reflector
Avalanche rescue technology

4-Way Stretch
Engineered with stretch material for more comfort in movement

Fully Taped
Waterproof taping for all seams
