

PRESS RELEASE

ATEL becomes REPA: extended offer and faster delivery for all vending spare parts.

Cesena, June 3, 2025

Important news for all vending operators: on May 31, following a merger by incorporation, ATEL, a company specializing in the distribution of spare parts for the vending sector, founded in Udine in 1972, changed its company name to [REPA Italia](#).

As of today, all service centers and distributors of vending parts benefit from an expanded range, including universal and OEM parts and all spare parts for the coffee, foodservice and refrigeration sectors, available on a simple and intuitive platform with many advanced search functions: the REPA Italia website.

The collaboration between the customer service team specialized in vending, still active from the Udine headquarters, and the experts at the automated fulfillment center in Cesena, where the entire offer for vending machines, hot and cold beverage dispensers, snack machines, OCS and superautomatics is now stocked, ensures an even higher level of service for vending operators, reducing delivery times for spare parts throughout Europe.

Leonardo Raggi, REPA Italia CEO comments: *"From today, vending has a big new home: REPA Italia. This union represents the natural integration of two realities part of the same family since 2018. From today, vending machine maintenance and repair times are further reduced, thanks to the high availability of spare parts and accessories always in stock, accessible from the REPA Italia one-stop shop, and the logistical efficiency of one of REPA's most advanced fulfillment centers."*

REPA

REPA is Europe's leading distributor of spare parts for foodservice and refrigeration equipment, coffee and vending machines, and a trusted partner to OEMs, delivering the right part at the right time.

With the world's largest inventory of in-stock original and universal spare parts, consumables and accessories, and a state-of-the-art network of automated fulfillment centers across Europe and beyond, REPA ensures the fastest delivery times in the industry.

AI-powered tools, 360° images, detailed exploded views, technical manuals and other search features available on its eCommerce platform and mobile app make part identification and ordering seamless. A team of industry experts speaking more than 20 languages helps customers find the perfect solution for every repair.

With REPA, keeping foodservice equipment running at its best every day has never been easier.

REPA is the European division of Parts Town Unlimited.
