SERENE MOVEMENT

INTUITIVE TRANSFORMATION

The subtle transition from shape to shape, reinforced by a spontaneously drawn singular line, merges all elements together. This creates unity and a sense movement.

NEXUS DINING TABLE
by Alain van Havre

“The oval encourages conversation and interaction.”

Alain van Havre, designer

CENTRAL ELEMENT

The design has a delicate and gentle appearance. Each part seems to just gently rest on its supporting counterpart and that gives the table a kind of “visual lightness”. However, they all have their purpose, and together form a solid structure.

OTHER PERSPECTIVES

The defining feature of the Facette dining table, like the Facette chair designed by Alain van Havre, is obtained by alternating geometric shapes. They are placed in different angles, so light can hit each triangular surface differently and give it new direction.

referring to Brutalist architecture.*

A SOFT TOUCH

Over the years, the Bok chair has become one of our most recognizable designs. Its appealing light look and solid construction are key elements of its success. Now we have added a cushion for extra comfort.

ELEVATED DESIGN

A TALLER SILHOUETTE

With the Anders and DC collections we experiment with different materials while always staying true to our signature design aesthetics. The new DC bar and counter stools are based on the DC chair's signature airy contours.

“Comfortably hanging out, that’s the idea behind the Facette bar stool.”

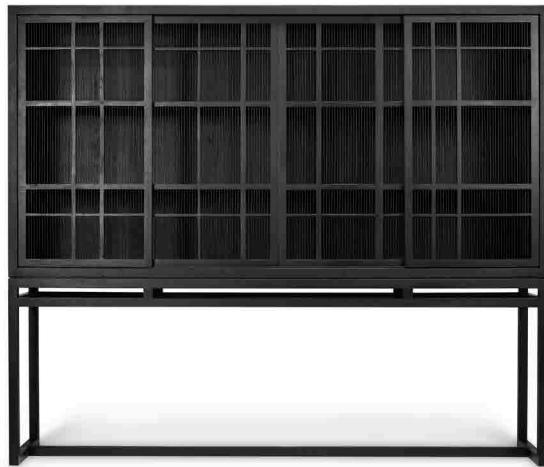

Alain van Havre, designer

FACETTE BAR STOOL
by Alain van Havre

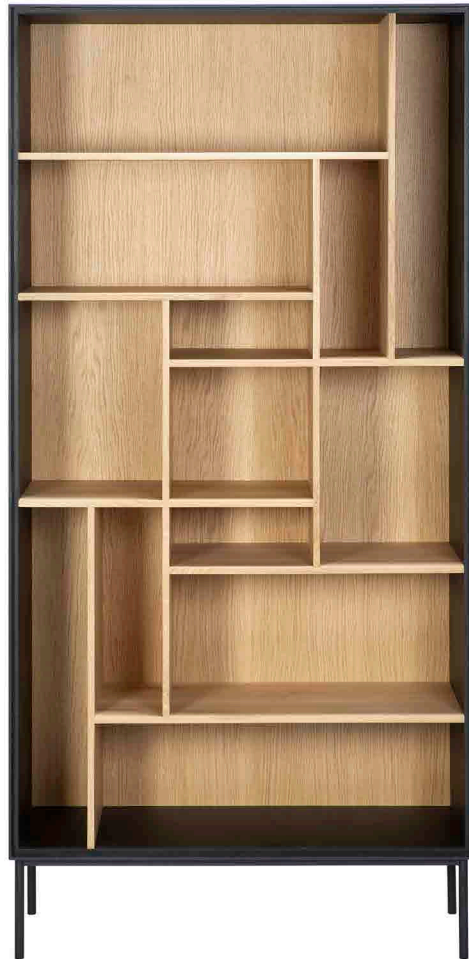

Like a shroud, the large sliding doors with bamboo spokes let light shimmer through. This creates an inequivalent sense of mystery and intrigue. The Burung storage cupboard is designed with the personal objects you want to have close in mind. From souvenirs and collectibles to curiosities.

FULL CIRCLE

The classic M-rack meets Blackbird. A merger of one of our most recognizable items and a newer signature collection. A visually balanced yet dynamic composition that has plenty of space for every object you want to display.

STAIRS RACK
by Alain van Havre

By combining multiple Stairs columns, you can create a sculptural centerpiece that forms a non-traditional separation or divide in a room.

“Bringing balance to the asymmetrical.”

MIKADO COFFEE & SIDE TABLE
by Alain van Havre

By intersecting geometrical shapes and creating interaction, we found something new. From any angle, the side table does not only look different, it becomes different.
