

# BRITISH RED CROSS DEFENDER 130

## Key features overview

### BUILT-IN PHONE AND VHF RADIO

Allows emergency response teams to communicate from remote locations

### 4G-CONNECTED ANTENNA

Provides a strong signal to keep response teams connected, whatever the location

### UPGRADED TELEMATICS SYSTEM

Includes 4G tracking so that the vehicle's location can always be identified

### EXTERNAL CHARGING POINT

Provides electrical power for a range of devices in the most remote locations

### EMERGENCY RESPONSE LIVERY

Identifies the vehicle as one designed to support in emergency situations

### SOLAR POWER SYSTEM

Charges an auxiliary battery to power accessories when the engine is not running

### WATER BOILER

Allows responders to provide hot drinks to keep people warm during colder conditions
